SHIP SALE RULING OF NATION EVADED BY RUM-RUNNERS

Traffickers Arrange for Craft to Be Libeled by British Merchant and Then Resume Trade

the average bootlegger, rum-runner and liquor smuggler. These men scout the Constitution of the United States and laugh at the Eighteenth Amendment and honest efforts to enforce it. While they aid and conspire with men of other nationalities to foster an outlaw traffic, they attack their country from within by doing everything in their power to bring contempt upon the law that forbids the transporting and sale of intox-

The New York rum smugglers have been put to it to get vessels for their business and once such craft are purchased to transfer them to the registry of Great Britain, and thereby avoid the danger of search by the prohibi-tion enforcement vessels and the

United States revenue cutters.
In the beginning, it is true, the rumrunners found it rather easy to have the transfer of registry made after the vessels were purchased, but the enforcement officers raised so vigorous a protest that the United States took the matter up and transfers of vessels from the American to the British flags hard to get and many uncomfortestions were asked before this

Coverament Issues Order

the prospective buyers would be made to take on h stating that the vessel or vessels to be bought and transferred created, and it is clear that French were no to be used in the rumopinion is divided as to whether the running traffic. The alternative was Ruhr operation should be pursued instipulated that if the craft transferred definitely, or whether it should not be were to engage afterward in the rum ended by negotiations with England, smuggling activity that United States and afterward with the Germans. revenue cutters might seize, search and confiscate them.

smuggling that apply in transfer of as having made pea Shipping Board vesse's to foreign undue intransigence. registry also apply on transfers of privately owned American ships, it is explained in Washington Private owners must obtain permission of the France, and particularly were they Shipping Board to effect a transfer of shocked by the fact that M. Loucheur. registry to foreigner, and if the Ship-ping Board has reason to believe the ship is being transferred for the purpose of rum-smuggling it can stop the sale. Jurisdiction of the Shipping been Board covers all transactions, whether

made in foreign or home port. The so-called rum-smuggling clause haul liquor from one foreign country to another country. It simply prowides that vessels shall not be used to smuggle liquor into the United This condition must also be included in all subsequent sales of the ship, and violation of it by first pur-chaser or subsequent buyers, makes it subject to confiscation by American

Bootleggers' Cunningness the intermediary of the French Am-This restriction, however, has been bassador at Brussels, but it will be overcome. The New York bootleggers necessary to reassure his guests today. are boasting how they circumvent the laws in order to undermine the Constitution by smuggling rum despite all regulations. The practice in brief is for the New York bootlegger, after he buys a vessel, to send it down to the Bahamas and tie it up at some wharf or anchor it in the harbor at Salt Cav. just outside Nassau harbor. Here the vessel is allowed to rock at anchor while the hills for the crew's wages the supplies and the repairs are ac-

Then, the bootlegger, after arrange ment with some Nassau merchant or ships' broker, refuses payment of the bills when they are presented and the Nassau merchant or broker libels the The vessel so libeled is finally sold at public auction for her ostensihle debts and the merchant or the broker in the plot with the bootlegger buys in the boat purporting to do this

Once in the hands of the Nassau merchant or broker, the rest is easy. There is no difficulty in arranging the change of register, for the vessel's owner is now a British subject, so the papers are made out and the Union hoisted and the bootlegger in command can carry his cases of rum from the Bahamas to any point off the United States coast without fear of seizure or search by the revenue cutters of the Republic.

what is expected of it, is publicly informed that the vessel is not to return to the United States, and owner refuses to provide transportation home from Nassau. Then the crew appeals to the authorities and libels the yessel for wages, and the Nassau merchant in the plot comes vessel placed under British registry and the vessel is ready to become a rum and whisky carrier for the bootl'egging traffic.

Deride America's Laws

Practices like these are boasted of openly by the bootleggers. Men who American Army Libraries are citizens of the Republic sit under the shadow of the flag of some other. The Norman Tower at Bury St. Edmunds 6 nation and deride their own country's laws and tell of how often they have laws and tell of how often they have smuggled and how much, and how this has been done by taking a United The Hill People of Formosa. 7 Among the Railroads 10 der the British flag. 15

Belgian Ministers in Paris Are Shocked at Conditions - M. Poincaré Changes Attitude

> By SISLEY HUDDLESTON By Special Cable

PARIS, April 13-Mr. Theunis, Premier, and Henri Jaspar, Foreign Minister, of Belgium, respectively, began conversations with the French Premier, Raymond Poincaré and other French ministers immediately on their arrival here. The conference will continue throughout the afternoon and probably tomorrow. Great importance is attached to the meeting because the commotion which surrounded the visit of Louis Loucheur, former French member of the Reparations Committee to England. The most influential French newspapers appear to be making a Poincaré-Millerand duel out of this incident. The Figaro When he Government sought to for example strongly attacks Presising his practice it stipulated that in dent Millerand as the man who concases where the suspicion attached, fided a mission to M. Loucheur. M. Poincaré is exonerated.

An unpleasant atmosphere has been Each side blames the other, one a having spoiled the enterprise by the All conditions regarding rum- mere talk of negotiations; the other as having made peace impossible by

Belgian Ministers Disturbed

The Belgian ministers were disturbed at these signs of division in shocked by the fact that M. Loucheur whoever he may have been representing, went to London and conducted what is now generally called negotiations, without the Belgians having been consulted or even notified that such mission was on foot. Belgium is country which has stood faithfully the so-called rum-smuggling clause is not forbid ships being used to liquor from one foreign country ever Paris was doing, if the two country another country. It simply protries were to continue to work toignore the Loucheur trip and its consequences, which will influence the whole course of the conversations. Explanations were due to Belgium, and M. Poincaré furnished some by

He maintains that no official mission was confided to M. Loucheur, and as for the Ruhr and reparations, the ideas of the French Government have not changed. It is believed that no serious misgivings are now feit by Belgium, but the incident has produced unexpected results, and will continue to produce incalculable consequences. In France, the visit appears to have crystallized all moderate thought and

IMPASSE IN EUROPE IS CHARGED TO AMERICA'S SPURNING LEAGUE INSISTS ON RIGHTS

Henry White Says United States by Helping Execute Versailles Treaty Could Have Averted Ruhr Menace

BALTIMORE, Md., April 13 (Special)—Henry White, former Ambassador to France and Republican member of the American Mission at the Peace Conference in Paris, declared at a meeting of the Maryland branch, League of Nations Non-Partisan Association, last evening, that if the United immediately interested as France believed Germany would be able to pay. More, we promised, even before the war ended, that if Germany would be treated with consideration. Germany did expel her Emperor, but owing to our withdrawal from the European situation that promise also fell down. But what can be done now by the

with the carrying out of the peace of Versailles the present situation in Europe, so fraught with danger, would not have arisen.

It would not have arisen because, first we would have given France the peace of that we are willing to associate ourselves with a League of Nations.

Personally, all my life I have been opposed to the use of force. I believe in persuading, not in driving.

I believe that when minute discussion is brought to bear on any dispute no first we would have given France the protection that was due her as the result of her giving up the Rhine—a step that we were influential in inducting her to take, because we thought it would be another Alsace-Lorraine.

Then, too, we would have prevented the imposition of those monstrous terms ference the war would have been held

of reparation of Germany. We would have been held up, Germany would have been consisted of Germany as the experts of this country and of other nations not so the war would have been averted.

DRY LAWS BACKED BY WOMEN VOTERS

Leaders at Des Moines Parley Demand Strict Enforcement -Child Labor Opposed

DES MOINES, Ia., April 13 (Staff application to prohibition.

ine Waugh McCullock, of Chicago Ill., herself a lawyer, is an ardent advocate of such a plank. "To obey law is one of the first duties of citizenship," said Mrs. McCullock today. "Ir former years the licensed liquor traffic was a leading lawbreaker, under prohibition the unlicensed liquor intoxicating liquors. The disloyal cit-izen must be prevented from so doing enforcement. The next generation will show a great improvement in this regard."

"Law enforcement is the very foundation of democracy as expressed in 5 constitutional government," said Mrs. Ernest Julian Mott, member of the San Francisco School board, lieve most emphatically in most stringent law enforcement. I do think that most of the women at this convention share this opinion. Breaking down the enforcement of any law .18 means weakening the whole system.

Women realize this fact.

Equal representation of men and

and political work of the league is sharing interest in today's session with the annual election and action on

amendments to the by-laws. The women of South America are organized for a vigorous equal frage campaign, said Miss Elizabeh Babcock of Watertown, N. Y., in a speech this afternoon. Miss Bahcocl accompanied Mrs. Carrie Chapman Catt, in her recent South American

their members should be unseated.

They are in an uncertain equilibrium,

for an amendment to the Constitution of the United States which would give each state the right to enact a valid minimum-wage law. Such is the call issued by Miss Agnes Nestor, president of the Chicago Women's Trade

Union League. From all quarters of the country come protests against the decision.
Already the National League of
Women Voters has raised its voice in
protest. California sends word today that the citizens of that State are rallying to the defense of the State minimum wage law. From the State of Washington comes a report that certain high State officials have sent broadcast an appeal for federal action. The Congress of Mothers joins the forces who condemn the decision,

and declare that mothers of the race should not be put in the same category "Shocking Triumph"

Leaders of the opposition refer to the decision as a "shocking triumph for the reactionary element. say that it puts property rights above human rights, and that the only road to 100 per cent womanhood in industry is through the minimum wage law. The Woman's Christian Temperance Union leaders also declare against the decision. In referring to the ruling to a representative of The Christian

Cites Massachusetts Law

This is nowhere more apparent than an in the State of Massachusetts. There the minimum wage is established on the basis of the co-operation of employers, but strong efforts have been made to pass mandatory legislation in that State, and I believe the matter is up in the present Legislature there.

through, and it will be remembered that the federation took the lead in the child labor amendment.

The latest decision, reached with a bare majority of one, is a most decided backward trend and its force is felt the harder since it has come so closely upon the adverse decision of the same court in the child labor case. The child labor case, however, was a federal matter only, but the minimum wage decision is vastly more sweeping, involving the is vastly more sweeping, involving the issue in many states which adopted such legislation.

There is no doubt in my mind that many manufacturers in these states will immediately hall the District of Columbia decision as the signal for them to take advantage of the minimum wage laws they are now operating un-der in the various states, though no doubt some employers will be suffi-ciently humane to continue recognition of minimum wage standards already

established.

Nevertheless, there is a most decided need for force back of the minimum wage. In order to make a standard living wage for women effective, there must be some mandatory power back

WEATHER PREDICTIONS

Boston and Vicinity: Rain late tonight and Saturday; not much change in tem-perature; moderate easterly winds, inperature; moderate casterly winds, in-creasing Saturday.

Southern New England: Rain late to-night and Saturday; no change in tem-perature; increasing easterly winds.

Northern New England: Cloudy, with rain and snow late tonight or Saturday; no change in temperature; increasing easterly winds.

Weather Outlook

Weather Outlook

There has been marked rise in temperature within the last 24 hours in the upper lake region and the upper Mississipp and central Missouri valleys, and a decided fall in temperature over the northwestern states and in the New England states. In New England and New York cloudiness will increase and the weather become somewhat warmer Friday and will be followed by rain by Friday night and on Saturday.

"REAL SCHOLARS" AIM OF COLLEGES

Wesleyan Head Says Progress Education Is Making Change in Objective

SPRINGFIELD, Mass., April 18 (Special)—That American universi-ties and colleges will ere long insist upon their graduates being "real scholars" rather than "learners of particular sciences or the art of getting a living," was the prediction of Dr. Stephen H. Olin, acting president the annual banquet of the American Physical Education Association in Hotel Kimball last night.

If the scholar is under an eclips at the colleges just now, Dr. Olin re- HOLD HUMANE DAY marked, it is a favorable augury that the athlete, having his activities well standardized, has arisen, and added: "I hope that soon the colleges will reassert themselves, as moral and mental guides in our land and require definite standards of scholarship and definite subjects of instruction.'

He gave credit to college athletics for important contributions to educaof the Sheppard-Towner maternity act tional progress. Of these perhaps the and the bill transferring the work of most important, he observed, is in the the interdepartmental social hygiene wider and closer contact established board to the Department of Justice. The social hygiene committee will tutions, affording a marked contrast study the vice repression law, the in- to the isolated order that prevailed at junction and abatement law and the most colleges a generation or more ouster law, which provides for the exago. Dr. Olin found that interest in editious removal of officials who neg- athletics on the part of alumni has bred a closer relationship between them and the undergraduates and so sion, headed by Mrs, Maud Wood has been a force in keeping alumni interest alive in the serious interests and projects of the colleges. Despite criticism of undue prominence given to athletics in colleges, he expressed an opinion that most college students really work, though he implied that he was not in entire sympathy with some of the methods on which course

of instruction are ordered. Pres. Carl L. Schräder presided. Following Dr. Olin's address, Dr. Dudcago, on behalf of the association council, presented a gold watch to Dr. classification of salaries in the Federal J. H. McCurdy of International Y. M.

WILL BE STUDIED

Massachusetts Senate Allows \$25,000 for Investigation

Thorough investigation of the question of pensions, old-age and other-wise, will be made by the Massachusetts Legislature as result of the demand, more insistent this year than ever before, for the enactment of a law providing for a system of noncontributory old-age pensions.

The Senate today, by a vote of 24 to 6, approved a resolve offered by Charles H. Hartshorn, Senator from Worcester, for investigation by a special commission of five to be appointed by the Governor. The study would cover "the entire problem of pensions, retirement allowances and payments in the nature of pensions" as applied to the public service or private life. The commission would inquire into the question of the number of persons affected, the probable expense, the effect upon the tax burden, the extent to which various forms of aid and sub-This is "Humane Day" in all the sidy now extended would be diminpublic schools of Massachusetts, and ished by a system of old-age pensions, the workings of present pensions systems and the respective merits of conentire State are expected to appreci- tributory and non-contributory sys-

to have revealed moderate thought in Massau, and even the merchants who many unsuspected places. However, have profited so greatly by the comins there is some reaction, and there of the rum-runner and the bootlegger seems less chance of generous offers and their lavish expenditure of money or initial steps being taken than before. The Belgians naturally ask are saying that things are going too whether the French Government intends to continue the Loucheur-Bonar have favorite hotels in Nassau. Some houses, indeed, refuse to admit mer houses, indeed, refuse to admit mer official communication. It is understood that Mr. Bonar Law, the British visit from the French emissary, be lieved him to be a fully authorized Ambassador. He asked for an offi-cial communication from M. Poincaré, confirming M. Loucheur's suggestions

There was, on the part of M. Loucheur, the intention to return as the bearer of such a note. But circumstances changed and M. Poincaré appeared to become an opponent to the pretty semitropical island, even this method of negotiating with Lon-though it may mean a return to sisal don before Berlin surrendered. It was growing, sponge fishing and tomato objected that M. Loucheur had promised to listen and not to talk. It would appear that, carried away by his own enthusiasm, M. Loucheur talked rather than listened. It is held that there is no new fact which would justify the pening of new conversations England. But apart from such exlanation, the subject raises that of a settlement which France and Belgium willing to accept. It may be im possible to discuss a settlement with ondon, but there should be an under standing between Paris and Brussels. Mr. Theunis is anxious to arrive at an agreement with France on these matters, but there are Belgians who think that nothing should be done

without the presence of British representatives, and would have a Franco FORESTATION DAYS British accord. The French plan in so far as it exists, though subject to modifications, has often been given by The Christian Science Monitor representative. The French want to keep the nominal figure of 132,000,000,000, but in reality to take 50,000,000,000 gold marks as an effective German debt. Of this, the French share is 26,000,000,00 gold marks, and, provided France is paid this amount, the Government is prepared to allow anything to happen to the rest.

There must, however, be added to the French demands, the repair of the devastated regions in Italy, Ruclares that "it is necessary that we mania and Jugoslavia, besides the turn energetically to the work of Belgian priority of paym at, and the reforestation, in order to replenish our cost of the occupation armies. The wasted timber lands." He urges not French would have the annuities alone reforestation of large tracts of raised by loans in successive years. Some of the C. bonds may be to purchase concessions of coal mines. As there is payment, occupation will be reduced, but before it entirely disappears there must be an international gendarmerie to survey the strategic railways and to guarantee France against aggression.

The birth of new industries, and the

LABOR CLINGS TO CAPITAL LEVY AS OUTLOOK BRIGHTENS IN BRITAIN

No Illusions Entertained About Immediate Prospects, but Party Keeps Steadily at Work

Special from Monitor Bureau LONDON, March 27-The swing of take place. the British political pendulum is toward Labor, and the members of this party feel hopeful that office will eventually come to them. Their confidence is reflected in a statement made by John Robinson, chairman of the Scottish Labor group, on the subject of the recent acceptance by Ram-say Macdonald (leader of the Labor Party) of an invitation to dine with the King. "Part of the duties of the leader of the Opposition," Mr. Robinson said, is "to be in the closest touch possible with the authority with whom the leaders will be in contact when the Opposition becomes the Govern-ment." This is significant, since Labor, as the predominant partner in the Opposition in the British Parliament, as now constituted, would have an opportunity to assume office if present Government were de-

The Labor Party, nevertheless, has no illusions as to its present pros-pects. Inquiries at Labor headquarters here show that the party organizers, while claiming that the Government has had a bad set-back, fully recognize that Labor is still a very long way off from delivering a coup de grace. They talk about a possible election three years hence, and admit that the Conservatives should be able to go on for at least that period, pro-vided such independent members as The Conservative Austen Chamberlain, Sir Robert changed their policy in consequence Horne, Sir Worthington-Evans, and of their misfortunes in the by-elec-Earl Birkenhead rejoin the Cabinet-tions.

an event which they fully expect to

Labor intends, therefore, to attempt nothing sensational at present. They are pushing on actively with their ed-ucative propaganda, which is to convert Great Britain to their economic theories, including that of the capital levy, to which they have pinned their faith. They think it would be premature for the time being to attempt any more than this. Mr. Snowden's onslaught on the capitalist system shows what the future Labor program is to be. They know that his motion has no chance of acceptance. The Liberals indeed who constitute the rest of the Opposition tabled an amendment to it, which rejected it almost as down-rightly as did the one placed on the paper on behalf of the Government itself. The Labor leaders think it good policy to keep this issue before the electors, however, as it is the one on which they hope eventually to come

They have no fear that the subject will lose its interest. They hold there can be neither recovery of trade nor restoration of prosperity until harmony has been restored in Europe, and the burden of war indebtedness removed. They are convinced that neither of these ends can be achieved while the capitalist system continues. They intend to bide their time therefore in the hope that their oppor

largely to the growth of science, thus securing employment and the welfare of the whole community being advanced. It is doubtful whether even yet it has been realised how completely this country would have been at the mercy of our antagonists in the late war had it not been for the research work done by our scientific men before the war and during its course.

I desire to mark my sense of the value of research to the community by offering, as a gift to the Royal Society, £100,000, to be used as capital or income for the purposes of the society, as the council may think fit, because I recognize that conditions alter so materially from time to time that, in order to secure the greatest possible benefit from such a fund, it must be administered with unfettered discretion by the best people from time to time available. Care must, of course, be taken that a gift from the fund shall in no case lessen any Government grant.

I should like to record my firm con-

grant.
I should like to record my firm conriction that a pariotic citizen cannot give money, or leave it at his death, to better advantage than towards the development of science, upon which the industrial success of the country so largely depends.

The statement of the Engineering Foundation, which, under the head-ship of Charles F. Rand of New York, is fostering a Nation-wide res program in co-operation with universities and other agencies, pointed out that another notable advance was marked by the \$4,000,000 gift of Arthur H. Fleming of Pasadena to the California Institute of Technology. Mr. Fleming's contribution was made James Creese of the American Scandito promote scientific research, par ticularly in physics and chemistry.

Director Alfred D. Flinn of the Engineering Foundation stressed the ne-cessity of diverting philanthropy to research work so that the Foundation may broaden its helpfulness to the engineers of the country and through them to its many industries.

FINNISH FUNDING TERMS RATIFIED

Special from Monitor Bureau WASHINGTON, April 13 - Advices have been received by the Treasury Department that the Finnish Parliament has ratified the terms for funding the debt of Finland to the United States, as tentatively agreed upon between the American World War Debt Funding Commission and the Finnish Minister to Washington, Axel Leonard Astrom. A meeting will be held in a few days between the Min-ister and Debt Commission to arrange for affixing of signatures to the agree-

The Finnish debt to the United States is within a few thousands of \$9,000,000. The rate of interest on the unpaid amount up to December 15, 1922, is reduced from five per cent to 4¼ per cent. The portion of the loan in excess of \$9,000,000 is payable at once by the Finnish Government, while the rest is to be funded as a long term loan. The rate of interest during the first 10 years, reckoned from December 15, 1922 will be 3 per cent and thereafter until the debt is repaid 3½ per cent. Interest is payable half yearly.

DRY FORCE MAKES RECORD IN ARRESTS

mobile force of general prohibition gents during the month of March, actoday by E. C. Yellowley, chief of the general prohibition agents, on this, he first anniversary of the organization of "prohibition rovers."

these were said to have been made in the New York-New Jersey division, six in the Western Pennsylvania division, and six in the Illinois-Wiscon sin-Michigan division. During March the mobile force made 1623 arrests, or 600 more than in any other month

since its organization. "A year ago the force comprised less than 250; today it is almost double that number and more than double in efficiency and productivty," said Roy A. Haynes, Federal Prohibition Commissioner.

EVENTS LEADING UP TO ALLIED ACCORD

By CRAWFURD PRICE

centered upon certain aspects of Louis Loucheur's visit, which it is now clear was at least semi-official in the full

sense of the word. M. Loucheur came over expecting to find the atmosphere charged with hostility to France. Instead he discovered real sympathy with its ambi-tion to obtain reparations and security alike, the opposition being to the ways and means employed, rather than the objects in view. Thus the pendulum has swung back quickly. The former Minister publicly advertised the favorable impressions he had received, and having himself fathered a plan more closely related with British ideas, perhaps naturally concluded that the two governments could speedily be brought into line.

In any case his optimism provoked a number of misconceptions in France principally that which suggested that Great Britain was prepared to reverse its attitude toward the Ruhr adven-

M. Loucheur appears to some ex-tent to have left the two governments guessing. He found Mr. Bonar Law prepared to admit that since the Allies had gone into the Ruhr it was not to be expected that they would retire until they had obtained satisfactory terms from Germany with guarantees of their execution.

Raymond Poincaré doubtless wishes to ascertain exactly how this affects his declaration not to completely evacuate the Ruhr until his claims are fully liquidated. It is curious how values change with time. The rights and wrongs of the occupation itself are now scarcely discussed and evacuation becomes the all-important topic of the moment.

It is presumable that Great Britain, faced with a fait accompli, will favor a definite schedule of progressive withdrawal, but there is no probability of a change in its general attitude Law's declarations on this issue will doubtless affect M. Poincaré's attitude at today's conference with the Belgians and influence his forthcoming speech at Dunkirk. But on the other ficial confirmation of the ideas espoused by M. Loucheur. They undoubtedly represent a rapprochement between the views of the two governnents, but nothing can be done until

DIRECT MAIL SERVICE WILL LINK BOSTON AND QUEENSTOWN, IRE.

Intermediate Stop at New York, Wasting 30 to 48 Hours, to Be Avoided by Cunard Ships

Captain See, U. S. N., Says

VALLEJO, Cal., April 13 (By The Associated Press)—Capt. T. J. J. See, J. S. N., astronomer at the Mare Island land-Great Britain steamship route. Carmania, which is helping out on the Following the Carmania's arrival, first trip, will go down to New York there will be three regular arrivals a month. It is hoped that the whole mail service to Boston from Great stop there, it will return to Boston Navy Yard here, in a statement de-nouncing Prof. Albert Einstein as an imitator and spreader of untenable theories, expresses regret at the action Lick Observatory, in announcing Wednesday that he had confirmed the the dispatch of mail from England ac-cording to the fastest route offered each week, Boston postal officials be-lieve this city will have a service im-

value highly the work of the proved 50 per cent.

Boston Mail for some time occasion-Lick Observatory," said Captain See, "but I regret to see it issue statements ally has been sent direct to Great to the press which lend support to Britain on the slower boats previously the discredited doctrine of relativity in service here, but British authorities than which a greater piece of humhave been slow to utilize the route, buggery has not appeared in any age." though urged to do so by local officials, who have pointed out in cor-The celebrated English physicist, Henry Cavendish (1731-1810), calculated the effect of Newton's theory that the corpuscies of light are bent toward the sun in passing near it; and in 1801, respondence that even with slower boats, Boston mail could often be got to city postal boxholders quicker than when carried 200 miles further by the sun in passing near it; and in 1801, Dr. J. von Soldner, a German physicist of eminence in his day, actually derived the formula recently used by Einstein. This was 122 years ago. Einstein never once mentions Soldner in his writings. This is bad enough, but the worst is yet to come.

It has been shown by Prof. Dr. E. Rehrcke, director of the Imperial Physical and Technical Institute of the New York route, unloaded, sorted

and returned to Boston. New York, Mr. Barrett of the foreign department, Boston post office, points out, is a day's trip further from England than Boston, so far as mail is concerned. Mail sent there suffers a duplication of unloading and delivery Rehrcke, director of the Imperial Physical and Technical Institute of Berlin (a position first filled by Helmholtz) and by Prof. P. Leonard. of Heidelberg, winner of the Nobel Prize in physics, that Soldner omitted a certain factor in his formula of 1801, which error Einstein also conied when Under favorable conditions, he says 48 hours may be saved in deliveries under direct shipment. For example, New York boats leaving Plymouth one Saturday and arriving the next, may

SAUCE

An improved, direct, Boston-Queenstown mail service with no intermediate stop at New York, that will put Boston from 30 to 48 hours nearer Great Britain in mail deliveries, will be inaugurated when the Carmania, of the Cunard Company, now on the high seas with 190 sacks of New England mail, docks at Pier 3, East Boston. The Carmania, which left last Saturday, is expected to arrive in Boston Sunday morning.

An improved, direct, Boston-Queenston and sort mail Sunday, which to Boston during Monday. which will get to Boston during Monday. The other hand, mail service, on the other hand, mail arriving Saturday night may be in the hands of post office boxholders on Sunday morning.

The transfer of three sister ships of the transfer of three sister ships of the new service. These ships Boston Sunday morning.

The new mail service to Boston marks the transfer of larger and speedier vessels to the direct New England-Great Britain steamship route. Carmania, which is helping out on the Following the Carmania's arrival. Britain can be speeded up by these deliveries, even though a majority of the mail still comes via New York. By intelligent use of the service, and ings with England, particularly in the textile, leather and kindred trades. are expected to be the ones who will most appreciate the rapid mail deliveries.

> Famous Teams - "Ham and eggs; fifty-fifty; pick and shovel; man and wife"—Bread

The Famous Spread for Bree

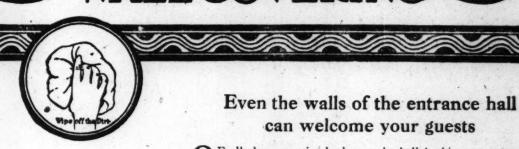

The home team is man and wife, and the Winning Team with the Home Team everywhere is Bread

Nucoa is the ever-sweet rich spread made from the snowwhite meat of the cocoanut. There is no nut flavor, just the true spread flavor-the fresh asall-outdoors taste that brings out the goodness of bread.

And speaking of the team fiftyfifty, Nucoa goes fifty-fifty with you on price-costs just half as much as the highest priced spread and adds the other fifty to the Quality of foods served.

N.B. Try creamed onions a la Nucoa—making the cream sauce by creaming a heaping table-spoonful of Nucoa with one of flour—add a cup of milk, cream to smoothness over a slow fire. You'll find Nucoa Cream Sauce the richest, yet most delicate you've ever tried.

OF all the rooms in the house, the hall is the most apt to be neglected. Yet, the first impression of a home is gained in the entrance hall. It is an index to the kind of people who live there. Unusual care should be given to the selection of the decorations-especially those of the walls-that they impart an atmosphere of cordial welcome and hospitality.

Sanitas makes this quite easy. Individuality has a wide range for adequate expression from among the many beautiful decorative and floral designs, or the soft, flat-finish plain tints.

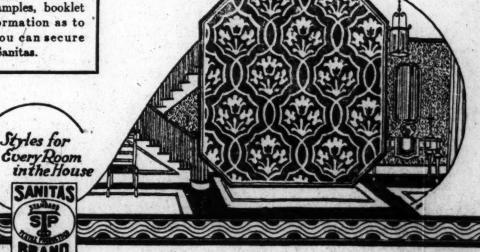

Sanitas is a finished product, made on cloth, machine-painted with durable oil colors. It can be applied over new walls or old. It does not crack, peel, or fade, is impervious to grease and moisture, and can be kept in clean and fresh sanitary condition by wiping with a damp cloth.

NEW TAX REFORM

New Hampshire House Begins WOMEN PLEAD Consideration of Bills for Additional Revenue

CONCORD, N. H., April 13 (Special) New Hampshire House of Representatives began consideration yesterday of the taxation and revenue reform bills which have been agreed upon by Administration leaders. The House has already voted to abolish the women's poil tax and prohibit hereafter all exemptions from taxation for manu-facturing industries.

It is now proposed to levy an in-heritance tax of 2 per cent on direct heirs, 6 per cent on collateral heirs, and 10 per cent on all other heirs. This will be in substitution for the present graduated inheritance tax of from 1 per cent upon direct heirs and 5 per cent and upwards on collateral and other heirs, which was de-clared unconstitutional by the New Hampshire Supreme Court in its re-cent reply to the legislative question-

State Made an Heir

It is also planned to make the State and the amount of the State's inheritance will be graduated from 11/2 per cent, in the cases of estates of from \$50,000 to \$100,000; 2 per cent in estates of from \$100,000 to \$250,000; and per cent in estates of over \$250,000. This state inheritance will be in addition to the inheritance tax mentioned

There will be levied upon wholesalers of gasoline a 1-cent a gallon tax. Purchasers for non-transportaupon presentation of the slips at the what we as taxpayers, are entitled to state treasury. The tax will be approtection from criminals." state treasury. The tax will be applied to highway expenses. There will be no reduction in motor vehicle registration fees.

To get an income tax on intangibles, it is proposed to repeal the tax on the principal of bonds and money and interest and substitute therefore a tax on the income from interest and phone & Telegraph Company to four dividends to be locally assessed and employees in recognition of unusual collected at the same rate as the tax acts of service during 1922, illustraton other taxable property, which in this State averages 21/2 per cent.

Savings Bank Tax The savings bank tax of % of 1 per cent on the principal of deposits will be reduced one-third and will be hereafter the same as in Massachusetts,

1/2 of 1 per cent, according to the plan. gram is not expected to be as much as was originally planned. The inheritance taxes will raise as much revenue as the present graduated taxes. The gasoline tax will amount to approximately \$5 per automobile and will be Rare New England Antiques applied to highways. The reduction in the savings bank tax will be a loss to the cities and towns and the abolition of the direct tax on the principal of bonds will be another loss. These two, it is hoped, will be made up by

the income tax on intangibles.

The total taxes are not expected to result in enough increased revenue to make up for the loss of women's poll taxes, there will be no relief t able articles dating from early New silk slippers, a wooden-jointed doll, the present taxpavers and no reduc-England days were reported at the French doll, green-silk sunshade, loafthe state tax, in the opinion April board of trustees meeting of the esting lot from Mrs. F. IAIL FOR DRY LAW **VIOLATORS SOUGHT**

Anti-Saloonist Leader at W. C. T. U. Conference Points at Inefficacy of Fines

WORCESTER, Mass., April 13 (Spe-

WORCESTER, Mass., April 13 (Spesupport as the public conscience is cial)—"All proper efforts should be aroused to the need of facing the ismade to convince our judges of the sue. That Cambridge women are out for thorough enforcement of prohibition is evidenced by a letter which the North Cambridge Federation of Women's Church Societies has sent to the Anti-Saloon League of America, in an address yesterday at the regional conference of the Massachusetts Woman's Christian Temperance Union at has been sitting in the Federal Court in Boston, has imposed a number of the State.

Continuing, Mr. Davis said:
The time has come when the searchlight of publicity should be thrown
upon those persons who are chiefly
responsible for the violations of the Naresponsible for the violations of the National Prohibition Act. So long as in important districts there sits at the gateway of justice any United States commissioner who temperamentally is unfit for any judicial office, who is erratic and at times viplent, who hakes no secret of his hostility to the Eight-eenth Amendment, and his contempt for many of those who are endeavoring to enforce the law, who, at times, seems to enforce the law, who, at times, seems more concerned with safeguarding and protecting the alleged rights of a law-less rum runner or bootlegger, rather than with enforcing the Eighteenth Amendment, so long will enforcement be inadequate. The time has come when an outraged citizenship is justified in demanding that such situations be remedied.

The selfish rich, who purchase liquor following the age-long custom of his race, makes, for his own use, a small

quantity of wine.

No law-abiding citizen can choose the laws he will obey and those he will not The higher the individual in the social and business life, the greater the responsibility that should be attached when he brazenly violates the law of

Greater efficiency of prohibition enforcement because of an increasing sense of individual responsibility in upholding the law was the encourage ing report made by the opening speakers at the conference. From cities and towns all over the district leaders brought encouragement for their associates.

PEACE IS CALLED

What is described as the "longoverdue war memorial" to the sol-Must Alleviate Reconstruction
Burden, Women Are Told

Declaring that a new code of international relations and dealings, to which the United States is a party must be established, Mrs. Lewis Jerome Johnson of Cambridge, in an address last night before the Woman's Club of Newton Upper Falls, pointed out that "the highest duty of a citizen is to form an opinion, and help mold public opinion until it becomes powerful and operative."

diers, sailors and marines of Massachusetts, should be crected on an island in the Charles River Basin at the Harvard Bridge, according to the Boston Chamber of Commerce, whose committee on manicipal and metropolitan affairs has just submitted its recommendations to the House Committee on Ways and Means.

Such a memorial, according to the chamber, "should be conceived and constructed primarily for the purpose of commemoration; utilitarian purposes should be secondary."

In reference to the proposed reconstruction of the Harvard Bridge. diers, sailors and marines of Massa-

construction of the Harvard Bridge. the Chamber advised that the two projects must coincide architecturally. a parting of the ways. The old path of war is not regarded as a safe and inevitable route, as it used to be. A 'The necessity of reconstructing the "gives an exceptional opportunity to join the two together."

The requirements for a proper me-morial "seem to be met admirably." believes the Chamber, submitted in 1920 by the Mayor's Committee on Proposed Memorial to Boston's Soldiers, Sailors and Marines, 'We propose that it be adopted as the long-overdue war memorial of the Commonwealth."

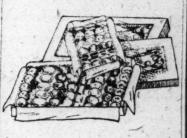

ONE-TRIAL MEASURE REPORTED TO SENATE

not as of our generation, but in the light of generations to come. Our gen-eration has through this war saddled In the interests of relieving the conested dockets and defeating the practice of appealing cases for the purpose of delaying sentence, the Committee on Judiciary of the Massachusetts Legislature today reported favorably on a bill providing that defendants in SOUTH HADLEY, Mass., April 13 criminal cases be given one trial special)—Elections to the editorial rather than two. The change was recommended by the judicature commissions of the source of the sou sion and by J. Weston Allen, former Attorney-General.

Under the measure, as reported in the Senate today, a person arraigned in the lower court shall be asked whether he waives trial by jury. If trial in the lower court is accepted it will proceed, and right of review of the judgment by an appelate division of the lower court is allowed. If jury trial is desired no hearing is held in the lower court, the case going directly to the Superior Court.

Sofia March 12 (Special Corres obedient majority and Bulgaria went of Count down all expenditure of count of the Past an appeal be made to the country." Clusion, and that an appeal be made to the country." An amendment by W. H. Casselment, United Farmers member, to a formal motion to go into committee of supply, which was virtually a want of confidence motion, was defeated by a vote of 49 to 62. The amendment was as follows: "That in the opinion of this House, in view of the fact that the first plank of the United Farmers of Ontario platform was to cut down all expenditure not absoluted. Bulgaria's Story of the Past

Nation Secured From Autocratic Tsar by a Constitution

SOFIA, March 12 (Special Corre-obedient majority and Bulgaria went spondence)—After five centuries of into the war aligned with Germany bondage under the Turkish yoke Bul- and Austria. garia was liberated by Russia in the war of 1878-1879. Immediately after thrown into prison for three years the liberation, the Constituent Assembly, authorized to draft a Constitution for the new State, was convoked at the old capital of Tirnova. A noteworthy document was there presented to the Bulgarian nation, embracing the most democratic ideas of modern constitutional parliamentary government. It provided for a constitutional monarch with prerogatives curtailed to a minimum, and a National isky, the miniature Bulgarian Robes.
Assembly of one chamber, with secret pierre, as he is sometimes called

With the launching of the Constitution there were clearly defined and in and by itself recruited in the main organized two strong parties, the Conservative and the Liberal. The Conservatives endeavored to increase Crown prerogatives in order to enhance the prestige of the nation; the Liberals sought to curtail them. Alexander Battenberg, the first Prince of Bulgaria, was driven from the throne. He was succeeded by Ferdinand of Saxe-Coburg-Gotha, father of

Prince Ferdinand was curbed by In 1893 Stambouloff was assassinated. Governments rose and tion. fell, cabinets were formed and dismissed in anick succession, and the Ferdinand succeeded in gradually securing within his grasp all the important functions of govern-The fall of a cabinet depended upon his caprice, domestic policy and foreign relations were subject to his dictum alone. This period is known in Bulgaria as the "personal régime." Ferdinand was supported mainly by the Liberals, an offshoot of the original Liberal Party, which, like the Conservatives, had split up into several factions. In opposition were most of the remaining parties among which were the Agriculturists, the ruling party of today.

In 1911, under the Daneff-Gueshoff Government, the proportional system tem were the Agriculturists. Upon control of the vote and will of the were on the side of Russia, the Liberator, and her allies. Dissolving the

TURKS WILL NOT SIGN PEACE

Present Turkish Government Is Military, and If Peace Were Attained, Kemalists Would Not Be Needed

that the first plank of the United Farmers of Ontario platform was to cut down all expenditure not absolutely essential, and, further, that the Farmer members of this House were elected for the purpose of securing legislation that would have as its object the amelioration of disabilities under which agriculture in Ontario has labored; this House regrets the fallure of this Government to live fallure of this Government into being and up to the ideals which brought the Farmers' Government into being and placed it in power."

Speaking of the disaffection of Mr. Hicks, the Premier said: "Recent happenings make it doubtful whether the present Government ought to bring in redistribution, headed by me. Serious that the first plant of the disaffection of existence. The Turk, are a martial people and war is their favorite business.

ATHENS, March 21 (Special Corresponding to produce by the Kemalist Government into being sixed by the Kemalist Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Farmers' Government into being and up to the ideals which brought the Christian Science Monitor by a well-known diplomatist who has had 20 to the voluntary blockade of her chief cornical united the voluntary blockade of her chief corners of the Work in the Turkish Mix

wents of forced exodus hitherto rightfully excluded from the established pale
of civilization.

In any other country the forced
shutting up of ports would mean destruction of trade and suffering by the
people due to unemployment and increased cost of living, but for Turkey
this is not true, for Turkey is like an
oyster. It opens its mouth only when
it wants to eat.

But why, now that Turkey has
gained at Lausanne almost all her
points, does she not sign peace? There
are those who believe that, if more
concessions were made by the already
defeated European diplomatists, Turkey would sign an honorable peace.
But I am sure she will not, and even if
she did, there would be nothing to preter the from discovering some new
pretense for disagreement.

Turkish appetite grows as Europe
gives in step by step. The motion of
Mr. Asquith for the evacuation of
Mosul whetted this appetite, Now it is
the Ægean Islands of Chios and Mytilene. Does it seem strange if the turn
of Syria comes after Mesonotamia? Or
of Syria comes after Mesonotamia? Or

the Ægean Islands of Chios and Myti-lene. Does it seem strange if the turn of Syria comes after Mesopotamia? Or do the Italians feel perfectly safe down at Tripoli? There has certainly been a crowding of Moslem leaders from Afghan and India, Egypt and Persia, round the Crescent at Angora, while a similar open rallying round the Cross has not been witnessed. Turkey is self-sufficient. She now is playing for time, through conference, dramatic interruptions of conferences, resumptions and stage management of

resumptions and stage management of extreme nationalists and moderate na-tionalists at Angora. Thus "Old Tur-key," thanks to allied discord, continues her old game of playing off one Euro-pean country against the other and misleading the world about "national pacts," Mudros and Mudania treaties. while she is having a laugh at those who believe in the fiction of New Tur-key, converted and regenerated.

CHEAPER GASOLINE

FOR NATION HINTED SAN FRANCISCO, Cal., April 11 (Special)-Another price reduction of 1 cent per gallon on gasoline and a rapid fall of prices for refinable grades of crude in the fields of Los Angeles and Orange counties, announced vesterday by the Standard Oil Company of California, accentuates recent predictions made here that overproduction of oil in this State may force drastic reductions in wholesale and retail prices throughout the United States.

Crude oil reductions range according to gravity from 1 cent to 41 cents per barrel. Since Jan. 1, 1923, the price of gasoline in California has sagged steadily under the growing pressure of unprecedented production and sharpening competition among big producers and independents. The retail price at service stations for Standard Oil gasoline, Red Crown, is now 19 cents, a total reduction of 3 cents. This reduction approaches very nearly This reduction approaches the estimated cost of shipping gasoline by tanker to Atlantic coast ports.

GEN. SAENZ TO LEAVE MEXICAN CABINET

SAN ANTONIO, Tex., April 7 (Special Correspondence)—Mexican consuls, particularly those functioning in Texas, have addressed a petition to President Obregon, asking Mexico's Executive not to accept the resignation of Gen. Aaron Saenz, who has been occupying the sub-secretaryship of foreign relations for more than two years. SAN ANTONIO, Tex., April 7 (Spe-

The President replied that though it is his wish to keep General Saenz in the Cabinet, the latter is determined to go to Monterey, where there is a popular demand for him to make a campaign for Governor of Nuevo Leon. than of the Angel where he interviewed Job Trotter. It remained for riched with semi-circular arches of Correspondence). Depresely has now COPENHAGEN, March 23 (Special Correspondence) — Denmark has now decided to send an official delegation to with the axe and not with the Russia, after considerable pourparlers between the Danish Foreign Office and the Soviet Government. I. Clan, chamberlain to the King and formerly Danish Consul-General in New York, is to be chairman of the delegation, which further comprises two men with vast experience as regarde Russia.

FRENCH WOMAN IS SELF-RELIANT

You will agree that the spectacle of the unfortunate war widows seeking employment and saying, "I can do a little bit of everything and I'll scrept any kind of work." is one to be re-gretted. Any kind of work! That's the most difficult kind under the sun to find. One of the great lessons that the great war taught to the women of this country was the danger of exclusive re-liance on the male for their support. And there can be no doubt that this is one of the reasons that women workers are becoming less and less inclined to give up their employment when they

Even before 1914 there were nearly 3,000,000 women earning their own living in France. The Droit des Femmes recently published some interesting facts on the subject which were communicated to it by M. René Viviani. One-Fifth of France

According to the 1911 census, there were in the country at large 3,926,000 women proprietresses of businesses, and 3,790,000 women receiving salaries, of whom 1,194,000 were 20 years of age and upward. Thus the total number of women plying a trade of some sort was 7.716,000, which figure represented over a fifth of the total population of France at that time.

In 1911 the average annual pay of the salaried women was estimated at 750 francs, but the Minister of Labor considers that this average can be placed at 3000 francs. This represents earnings of nearly 11,500,000,000 francs for the total number of salaried women. The earnings of the women proprie-tresses of businesses are rather hard to determine. It is to be logically as-sumed, however, that the 3,900,000 proprietresses of businesses earn quite as nuch as the 3,800,000 salaried which gives us the total sum of 23, 000,000.000 francs, earned by the working women of France.

ing that the activities of women are no mean factors in the common contribution of what makes up the nation's wealth. "Why then is there such a delay in according us that place in the state government, which is our right under the law of common jus-

The Organized Search for Ballads in the United States

In ENGLAND, several centuries ago, the people used to sing many a song of this and of that, of "Barbara Allen," of "Robin Hood," of "Bessie Bell" and "Mary Gray," and others not unknown. These were handed from mother to daughter, father to son—seldom were they put on paper; they were in the hearts of the singers. These folk songs or ballads date from earliest times; we have words of Chaucer and Lydgate, of Gower, of "The English and Scottish popular" ballads which we are now seeking These folk songs or ballads date from earliest times; we have words of Chaucer and Lydgate, of Gower, of "rare Ben Jonson" preserved in them. But after a time, they began to disappear in the British Isles, to become a thing of the past, fields of work for scholars rather than pleasures for the of the colonial population of the University of Alabama, said regarding it:

"The English and Scottish popular ballads which we are now seeking helped to moid the character of the linear population of the University of Alabama, said regarding it:

"The English and Scottish popular ballads which we are now seeking helped to moid the character of the larger part of the colonial population of the University of Alabama, said regarding it:

"The English and Scottish popular ballads which we are now seeking helped to moid the character of the larger part of the colonial popular part of the colonial popular part of the colonial popular part of the University of Alabama, said regarding it:

"The English and Scottish popular ballads which we are now seeking helped to moid the character of the larger part of the colonial population of the University of Alabama, said regarding it:

It is in these ancient English and a great impetus to the romantic move-ment in English verse. From that

Prof. Francis J. Child of Harvard spent many years of his life working on British ballads, and established authoritatively by a monumental work of ten volumes that there were 305 such ballads, no more, no less. His work, the last word in ballad research, did not treat of their transmission in America, or their modern forms. One of the commentators on however, Professor Kitteridge of Harvard, in his introduction to the one volume edition of Mr. Child's work, stated: "Ballad making, so far as the English speaking nations are concerned, is a lost art; and the same may be said of ballad singing. A few of the ballads in Mr. Child's collection are still in oral circulation, but most of them are completely forgotten, or known versions derived only from print. This notice fell under the eves of Dr. C. Alphonso Smith, at that time professor of English at the University of North Carolina, now at the United States Naval Academy at Annapolis He had lived near the country where many of the old ballads were still

To use Dr. Smith's own words: "I first became interested in ballad research when I found that Professor Child, in his authoritative 'English and Scottish Popular Ballads," ported that only four remained in North Carolina. I had already learned that many times that number could be found in the State. This started me to work. However, when in 1908 was notified of my appointment as Roosevelt exchange professor to Berlin, all my ballad work stopped. When I came back in 1911 and went to the University of Virginia, I found that many times the four assigned by Child to that State, too, were in existence there. So I took up the search for the elusive ballad."

sung, and was convinced of the error Professor Kitteridge's statement.

The Virginia Folk Lore Society One of the first fruits of Dr Smith's work was the organization of the Virginia Folk Lore Society, at Richmond, Va., April 17, 1913. This organization, of which he is president, resulted from the enthusiasm of Dr Smith in the quest of the ballad; is was the first definite step toward the recovery of modern remains of the old country songs through the organization of the teachers in the public schools. So far its work has been very successful. In Virginia 37 ballads have Missouri 20, Kentucky 24, Tennessee 8, Georgia 9. Texas 10. South Carolina West Virginia 12, in all considerably more than the few conceded to extant by Professor Kitteridge. Not allowing for duplicates, 77 are known in the United States.

"It is perfectly fascinating work, said Dr. Smith to the writer. "The search for the hallad is now the most nteresting phase of American literature. It is a revelation of tremendous historical importance to anyone who realizes how closely our present is built on our past, or how intimate are the ties of tradition which still link us to the lands across the waters. Many of these old songs that scholars have been searching for are being IMTS. John A. Logan

three melodies, one of which is Irish, soil, she endured in youth material and bears no relation to the other two. hardships in peace and war, and yet An interesting example of ballad influence in Virginia is shown in two near-by mountains close to Staunton Va., which are named "Bessie Bell" as "Lady Margaret" and "The House and "Mary Gray," after the old ballad Carpenter," while for "Barbara Allen" band's political career and to carry on and these two girls. Surely this shows profound influence, yet it is one of truth is that these folk songs have the false impressions regarding the recovery of these ballads, according Smith, that they are to be found only in the mountains. This is survives." not strictly true; in the case of Virginia many have been gotten from the tidewater district and a few along the called the dulcimer, and unless so accoast. The tidewater regions have not been examined into as much as the The dulcimer was brought from Engmountains, and it is likely that from land along with the ballad. Just as them many more can be gathered.

One instance of the unusual places lar instrument, the banjo, to which to which these old songs have strayed is shown in the ballad of Sir Hugh. the instrument of the ballad, used The event that this recounts took place in the year 1255, yet it is now sung, with slight variations, by groups of Negro children in the streets of New York; from them a Mr. Newell copied the words and music. He traced it to an old Irish

Interesting American mutilations show how and when old words such as eke went out of use; 'the rhyme determines that eke had in Chaucer's time the same sound as ache. poem of "Robin Hood Rescuing Will Stutley" states that Stutley eke in prison lay, whereas the Virginia version goes in Aiken prison lay, showing that eke had become meaningless to the Americans, who substituted for it something that they did under-stand. Their loss of familiarity with the sea is shown by the change of the original "sprung a leak" to American

The importance of the rediscovery

N ENGLAND, several centuries ago, of these ballads impressed the United

"The first step in our undertaking is to determine where any of these Scottish ballads that some of the ballads or their variations are now to best research work of literature has be found among the people. I hope been done: Bishop Percy, of Nor-thumberland, started it when, in 1765, he published his "Reliques of Ancient" ballads will help us, for such cohe published his "Reliques of Ancient ballads will help us, for such co-English Poetry," and incidentally gave operation may result in saving to the Nation many valuable treasures.

That the work must be done quickly day on the finding of a "new" ballad is also the opinion of Dr. Smith. It was a mark of literary achievement. is now or never, and unless these ballads are collected quickly, they will not be collected at all. Many ences make this necessary: the decline of communal singing, the influx of catchy "popular" songs, growing diversities of interests in the Nation, and the artificiality and self-con-sciousness of the schoolroom, all tend to the obliteration of the few remain ing folk songs and ballads.

To help in the work the Bureau of Education distributed widely a pamphlet containing the titles of the 305 ballads identified by Professor Child. This pamphlet has gone to 30,000 school teachers all over the country.

Another search almost as interesting is for the music of the songs. This is a field that has been much ago, Mrs. Logan became, at 17, the neglected; in English song books not wife of a young Illinois lawyer and more than 20 of the airs of the ballads are given. It is a more difficult America throughout the Civil War as task to take down the airs, since few people can write music by ear, but some headway has been made in the United States. In a little pamphlet, "Ballads Surviving in the United States," by Dr. Smith, the airs for a number of

Emphasis on Duty

Mrs. John A. Logan, whose memory is being honored this week. Born of pioneer parents in Missouri 85 years a soldier, and in public life for two decades thereafter; and when he had rying on the unselfish service they had undertaken together.

Daughter, wife, mother and grand-

laid emphasis not on woman's rights. but on woman's duty, both to family and nation. The first sentence of the preface to her autobiography, "Reminiscences of a Soldier's Wife," reads: "To tell my own story is to tell that of my famous husband, Gen. John A. Logan." That sentence is typical of the modesty and unselfish devotion of the woman. Yet it must not be taken as indicative of a clinging vine type. On the contrary, Mrs. Logan's career was marked as much by initiative and self-reliance as by devotion. Her help to her husband was that of a partner, not a mere encourager or private secretary; and when he had passed away, she pursued her own career with distinction for a third of a cen

This woman who was later to be the friend of presidents and diplomtaists, who was destined to be presented at the courts of Great Britain and of Russia, and to be decorated by the torney meant assumption of the re-sponsibilities of hostess and political aide in addition to those of cook, house maid, tailor, and laundress. Fortunately, pretty much everybody in the community was in like case, and it was the custom to be of mutual

The Lincoln-Douglas Campaign Soon came the stirring days precedng the Civil War, when the people of Illinois were torn by the slavery and the state rights issues. Mr. and Mrs. Logan took an active part in the Lincoln-Douglas campaign. Logan was a Democrat, but he was convinced by Lincoln's argument that the country could not remain half slave and half free, and with the firing on Sumter cast his lot with those who stood for the preservation of the Union. Such a decision was not to be taken lightly in southern Illinois, where sentiment for the slave-holders was strong.

Logan was in Congress, and while awaiting his return home, for the announcement of his decision, Mrs. Logan had to exercise the greatest tact with friends and neighbors. When the time for his arrival approached. the temper of the crowd was high and in order to prepare her husband for it, Mrs. Logan, then a girl of 22, drove 20 miles at night to the Carbondale railroad station to meet him. His train had been delayed, and she had to drive back to explain the delay to ginia has reported 37; when we get up to 50 we shall publish a book, with the songs and the music to them."

An interesting area of the country in four wars, the wars, the wars once more. When Logan arrived, he was another music to them."

An interesting area of the country in four wars, the wars once more. When Logan arrived, he was in actual danger of his life in declaring for support of the President in claring for support of the President in the war for the Union, but such was his sincerity, logic and eloquence that have different tunes for such ballads powers and social graces that enabled he carried the crowd with him and at once enlisted a company. Visit the Japanese in Taihoku A LAST frontier against savagery runs along the mountainsides of Formosa. This frontier is not a mere expression and an abstraction—it is a concrete reality. Down there the Japanese call these very real frontiers "guard lines," On one side the "head hunters"; on the other the diffusing, expanding, imperative legions of Japanese civilization, civil and military. There is no quarter—there can be none, indeed, on the Japanese aide—the Nimrods and the legions of Japanese civilization, civil and military. There is no quarter—there can be none, indeed, on the Japanese side—the Nimrods and the Esaus must accept more modern views upon the universal decologue or exterminate themselves magnificently though futilely. It is the old worldwide story: the races that make machinery rule the world.

One does not expect to see what sulphur, and as vapor is conducted through heated pipes to large "sublimation chambers" where as fluffy snow it sinks back into being a solid. Further drying by centrifugally flying vats being accomplished, the dried powder is pressed into crystalline cakes, and is ready to leave the odoriferous factory. America buys fully 80 per cent of the output.

The Hill People of Formosa

One does not expect to see what he sees in the island capital, Taihoku. The visitor has been informed that the blue hinterland mountains looking down upon it are beyond the guard-lines and that up there, ever vindictive, ever watchful, live the hill people, unreachable, unregenerate. But who could guess it in Taihoku?

Stocks Recently Under Pressure Recover Well in Early Trading

Further reductions in the redis-counts and note circulation in the New York Federal Reserve Bank had a constructive effect on prices at the pening of today's New York stock

market.

Further recovery from recent heaviness was made by the oil, automotive, rubber and independent steel shares, most of the opening sales in these groups being fractionally above yesterday's closing figures.

The early buying embraced a wide assortment of shares. Gains of 1 to 2 points were recorded by such widely

points were recorded by such widely diversified issues as United Fruit, Industrial Alcohol, Mack Truck, American Water Works, United Railways Investment preferred, Allied Chemical, and General Asphalt.

American Express continued under selling pressure, yielding 1½ points.
Public Service of New Jersey reacted

Foreign exchanges opened firm. Demand sterling was quoted at \$4.65½. up ¼, and French francs advanced 2 points to 6.70½c.

Evidences of Prosperity

Prices continued their upward course throughout the morning. Lower rates for money with indica-tions of an abundant supply available for stock market operations, higher sugar prices, record-breaking March copper shipments and further evi-dences of expanding business prosperful sentiment.

General interpretation of the recent reaction by commission houses as a correction of a weakened technical position was reflected in the heavy huy-ing orders from that source. While industrials were most in demand, a better inquiry was noted for the rail-road shares, particularly the lowpriced issues.

RAILWAYS SHOWS GAIN IN EARNINGS

For the first time in its history the United Light & Railways Company United Light & Railways Company crossed the \$12,000,000 mark in its gross earnings for a 12 months' period, showing \$12,029,187 for the 12 months ended Feb. 28, 1923, compared with \$11,235,196 in 1922, an increase of 7.01 per cent. The February earnings also showed a notable increase. gross being \$1,028,159, an increase of \$112,262 over the corresponding month in 1922.

.. 53 .102 .1495/8 . 343/8

hetter inquiry was noted for the railroad shares, particularly the low-priced issues.

Some of the outstanding strong spots were Du Pont, which established a new high. Stewart Warner, and Stromberg Carburetor, the gains ranging from 2½ to 4 points.

Call money opened at 4½.

While a number of prominent stocks made further headway upward, notably Crucible and Gulf States Steels and investment railroad shares, weakness cropped out again in many quarters. Several of the leather, chemical, shipping, sugar and oil shares were decidedly heavy, also Delaware & Hudson.

Bond Prices Mixed

Mixed-price movements took place in today's early bond dealings. Except for the marked heaviness of some of the South American issues, changes in the foreign group were small and irregular.

New York, Chicago & St. Louis 4s, up 1½, was the strong spot of the railroad group. Carolina, Clinchifield & Ohio Steel broke 3½ points and justment 4s, stamped, yielded ¾ to 1 point. Dery 7s opened a point lower, made up the loss and advanced 1½ points above yesterday's closing figures.

Marland Oil 8s, with warrants, jumped 2½ points. The United States Government Bonds moved irregularly within a radius of 3-32 of 1 point.

BRITISH FOREIGN TRADE

LONDON. April 13—The Board of Trade's report of foreign trade of the United Kingdom for March shows im-ports of £90,022,226, exports £60,920,-690, and re-exports £9,085,642.

	NEW YORK CURB
CONTRACTOR AND	NEW YORK, April 13—A stronger tone was shown in the trading on the curb market today. Petroleum stocks
	reflecting renewed confidence in the trade outlook, and there was an in- creased demand for many specialties in
	the industrial group. Maracaibo moved up more than 1

tandard Oil of Indiana rose I above 64. Kentucky made a point and Standard Oil of made a fractional advance. I rose 3 points but lost part

k made a fractional advance. Il rose 3 points but lost part in later.

Indent oil stocks moved in the inner, with gains in gulf oil intain products.

The memory was noted in many insues, although trading was ased volume. Some motor icluding Stutz and Cleveland, in Dublier Radio was strong a fractional advance. Hydrox in demand and moved up.

AMERICAN EXPRESS PAYROLL INCREASE

At the close of 1922, the American Railway Express Company had 72,600 workers on its payroll, drawing compensation of \$109,096,342 annually with a daily average wage of \$4.93 on straight time and \$5.97 for overtime. The 75,075 persons employed by the company at the end of 1921 drew paychecks aggregating \$130,418,333, the daily average for straight time being \$5.14 and overtime average at that time reaching \$7.55 daily. In rendering its service, the big ex-

press company was using at the end of last year 14,236 horses, 15,540 wagons, 2595 gasoline autos and 1114 electric automobiles, in addition 254 cars.

TRANSVAAL GOLD AFFAIRS

TRANSVAL GOLD AFFAIRS
LONDON, April 12—Transval gold producers report an output for the first quarter of 1923 of 2,231,025 ounces, which, at the value of £4 5s. 6d. an ounce, represents £9,500,000. In the similar quarter of 1922, production was only 639,728 ounces, which at £4 14s. an ounce, represents £3,008,722. The dally average production for March shows a substantial and unexplained decline, totaling 24,367 ounces, a decrease of 610 ounces.

Strength of First War Loan Feature of Continued Buying of Gilt-Edge Investments

By Cable from Monitor Bureau LONDON, April 13-The only feature exchange here has been the continued strength of investment securities. Moody's Weekly Review of Financial banks to helped by a continuation of buying Conditions in its current issue says upon them

A new high record has been made await political and labor developments.

In the money market the large high peak and before it again starts amount borrowed last week from the upon a main upward swing. Let us Bank of England has been repaid, and enumerate: generally loans have been in strong institution was avoided.

Fluctuation in Dollar

With regard to dollar rate movetrade demands for money. American heen realizing in the London market,

recorded in March, the returns of perience. clearing hanks still tell a tale of taxation pressure toward the end of the analysis, should be very satisfactory financial year, undoubtedly shown in as to both gross and net during the a decline of 47,500,000 in the aggregate balance of this calendar year, and in of deposits to 1,639,000,000 the lowest spite of the general rise in prices figure since these statistics have been and costs.

Tax Cuts Looked For

British business is awaiting with greatest anxiety the budget closures. Expert outside forecasts favor the likelihood of some relief in the income tax and the premium rate of 85. It is hoped, too, that a gards itself as distinctly handicapped

the issue of foreign loans. As a matter of fact, the showing durlast quarter of borrowings in mas. Britain for abroad is very poor, approximately £11,500,000, compared with £30,500,000 in the corresponding higher than the corresponding quarter dismissed, the decree was confirmed period of the previous year.

Capital Issues Small

Capital issues this week again reached a trifling total, but important rubber borrowings are in sight as well as a £2,000,000 issue for the Central Argentine Railway, while the formation of a large steel combine under Dorman Long & Co. will soon lead to an offering by that firm of £3,500,000. 51/2 per cent debentures, at 95.

It is incidentally a matter now of supreme importance for the iron and steel trade to set its house in order up of peace in the Ruhr which wellinformed quarters believe cannot be long delayed. Despite a temporary command of the situation, this industry has a long way to go since statistics just issued show the average share value at the end of March had For the n

Although Lloyd's register shows an increase in merchant ship tonnage under construction and begun last quarbe maintained in the current quarter and that orders and inquiries have fallen off. The Ruhr situation has had an unfavorable effect, and one Clyde shipyard has had to close down this week, thus suspending construction on three ships because of difficulty in ob-

soon to be decided, the question of a reduction in railroad freight rates, into which experts are now investigat-ing. Present charges weigh heavily on all branches of industry and with strike. regard to agriculture the Government has pronounced the opinion that the railroads are in position to reduce

rates drastically.

Pretty broad hints have been given companies that the extent of relife they will offer hinges on the issue wage negotiations with the men.

No Cotton Revival Yet

In cotton there has been no sign of revival as yet and the position is very uncertain with regard to the Near Eastern and Indian markets. In the meantime, under the spinners' production curtailment plan stocks In the corres are steadily reducing. The debate in value was Parliament early this week on the development of the Empire trade, emphasized governmental realization of the importance of increasing the sup-

chief source of supply for Lancashire. In an interview in The Times, he declared that the basic idea in the Commonwealth would be production by small farmers, and the area under cotton cultivation in Queensland this season, he said, was tenfold that for fast year. A very favorable report has also been issued this week with regard to the Sudan and Indian possibilities by the general manager of the British Cotton Growing Associa-

BONDS TRAVEL A CYCLE OF FOUR MARKET PHASES

Moody's Weekly Review of Financial

In determining when to buy bonds for the first war loan, which actually for profit on the principal rather than touched 103, compared with last year's merely for income, one needs to have highest point of 1024. The tendency in mind the four phases or stages ghest point of 1024. The tendency in mind the four phases or stages business in other directions is to usually passes after it has reached a

First, when trade becomes active although the necessity of business men withdraw working capihaving fresh recourse to the central tal which has been temporarily invested in bonds, and this means more or less selling. Second, the trade activity causes money rates to rise, ments, it is suggested that a partial and this causes bank selling of bonds explanation is the Ruhr troubles and and diverts funds from the bond market into the money market. Third. of foreign investments have if trade becomes extremely active it takes so much money to finance it that into that State it encountered opposit and the additional demand for the a capital famine develops, and busidollar is due to the transferring of ness men have to sell bonds to raise balances arising from sales, and this capital. Fourth, the general liquidahas caused depression in sterling.

Although further favorable trade stocks serves to depress bonds. These signs may be read in the continued in- phases, excepting sometimes the third, in advances and acceptances are nearly always shown in actual ex-

SOUTHERN ROAD DOES BETTER

OPPOSITION TO CHECK DISCOUNTS

Federal Reserve Banks Want Observance of "Par-Clearance" -Case in Supreme Court

WASHINGTON, April 13-Bankers bank depositors, business and com mercial concerns generally are all deeply interested in the outcome of the efforts of the federal reserve banks banks to pay at par checks drawn

Particularly among what are commonly referred to as country banks it has become the practice to charge a commission or "exchange" for remitting funds to clearing banks in the payment of checks drawn upon them by depositors. The practice is said to income, and for that reason they are strenuously contesting the position of the federal reserve banks which would

State Laws Support Discounts of the banks indulging in the practice a ton.
by enacting laws which would authorize its continuance. This was the case in North Carolina. When the federal reserve bank at Richmond, Va. decided to extend its "par-clearance" tion from the Farmers and Merchants Bank of Monroe and 11 other banks. The federal reserve bank at Atlanta,

The North Carolina banks defended prices taking a downward course themselves under the Act of 1921 of the General Assembly of that State, docks is still serious and no arrangewhich authorized banks and trust comfunds in payment of checks drawn a court of inquiry has been appointed upon them. The state courts of North to look into the necessity for it. Carolina, however, held the state law

Supreme Court Will Decide

The United States District Court for northern Georgia, without going into other banks of Georgia, on the ground of want of equity, and its action was approved by the Court of Appeals.

When the case reached the United

Supreme Court, the decision no basis for action against legismate case back to the District Court to be For the first quarter of 1923 Kresge's tried on its merits. At that court the complaint of the Georgia banks was by the Circuit Court of Appeals, and in the first quarter, 1923 should see now the case is back in the Supreme Last year the ratio of profits to sales has been joined by a North Carolina Oral argument will take place

Should the small banks be permitted on estimated sales, compared with to charge "exchange" for cashing \$6,616,417 in 1922 and \$3,260,587 in checks, it will be necessary, the federal banks declare, for business houses to adjust themselves accordingly, and either require their cus-EXPORTS INCREASE or increase their prices to cover it.

EARNINGS EXCEED FIRST OUARTER

While Nash Motors Company earnmonths of its fiscal year to Feb. 28 are

ter. Last year the company earned \$23.68 on each share on its present common stock, increased early this year from 54,600 shares.

Although retirement of old pre-ferred stock in February, dividend payments and necessity for larger inventories and current accounts due thought that the entire city budget will to the expanding volume of business not be more than four times as great have drained the treasury to the exast the part already approved.

to the expanding volume of business have drained the treasury to the extent of \$5,000,000 in the last three months, cash on hand is still in excess of \$16,000,000, compared with \$18. 000,000 at the end of 1922.

GILT-EDGE ISSUES ARE FIRMER ON THE LONDON BOARD

LONDON. April 13—Generally, on the Stock Exchange here today, industrials were irregular. Rio Tinto was 38½. Hudsons Bay was 7½. An im-

provement in the monetary situation French loans were steadier in sympathy with the franc. Adjustments for over the week-end

ing brought about recessions in Argentine rails. Dollar descriptions were firm. Repurchases aided the oil group. Royal Dutch was 33% and Shell Transport 4%. Kaffirs were uninteresting. Rubding period of 1922 the bers were dull, following the staple. In the main the markets were steady, but the turnover was not large.

KENNECOTT COPPER'S YEAR

phasized governmental realization of the importance of increasing the supplies of raw cotton.

Australia, according to Sir Joseph Cook, High Commissioner, looks forward to rendering the Empire independent, and replacing America as the state of the stock of the stoc

GENERAL TRADE IN ENGLAND IS RATHER QUIET

Living Costs Hold High-Little Business in Cotton Market-Fuel Lack Hampers Steel

LONDON (By Mail)—The level of retail prices of all commodities on March 1 was 76 per cent above July, 1914. On Feb. 1 it was 77 per cent, and on March 1 a year ago, 86 per cent above the 1914 level. Food prices in February showed a decline.

The raw cotton market is quiet. particularly for American varieties, but Egyptian cotton shows more movement, and a fairly good business is passing at 18d. At the London wool auctions de-

mand was well distributed between home, American and Continental buyers. Wheat and maize are firm, but only a moderate business is developing. Tin has given way a good deal, owing to lack of interest on the part State Laws Support Discounts of operators, and copper and lead are Some states have some to the relief easier, while spelter has fallen 10s.

Coal Demand Good Business in the coal markets is fair, prices-including 22 from the Ship-

Demand is good. Prices are strongly maintained. At Newcastle there is some irregularity for forward dates, owing to view of the Welsh labor troubles, Ga., had a similar experience with banks in that State.

Shipping congestion at South Wales ment for a third shift of tippers and panies to charge a fee for remitting trimmers has yet been made, although

The iron and steel business conunconstitutional on the ground that it tinues hampered by the fuel difficul-was in conflict with the Federal Ren conflict with the Federal Re-ties. There is a perceptible falling Act, and that it contravened the off in inquiry for Cleveland pig iron. legal-tender provisions of the Federal Prices have reached a level which consumers hesitate to pay except for urgent needs. No. 1 Cleveland pig iron is quoted at 130s and 132s for export.

There is god demand for steel, and export trade is particularly active. Railway materials are in good request. Large orders have been placed for tires, axles and springs, while wagon builders will be busy for some

Reports from Sheffield say the Ruhr trouble has compelled German users NORTHERN STATES to buy Sheffield steel again. An order has been placed for a quantity of high carbon steel for Germany, the first since the war. Germany was Sheffield's best customer in the better qualities of steel for engineering purposes before the war.

There is little change in the cotton The market is fairly strong, but little business is passing. Prices dearer, particularly for yarn.

The index number of cotton prices published by the Manchester Cotton Trade Review was 214 March 16, a rise points during the month figure is based on 100 in July, 1914. and at present American cotton alone is at 250, and American yarn 236, respectively, 9 and 10 points up during the month. Egyptian advanced five points to 211, while Egyptian yarn at 178 shows an increase of six points. Cloth prices have advanced four points

BELGIUM SUCCEEDS IN PREVENTING FRANC INFLATION

he first of the year averaged close to 18. Prices on export bills drawn in francs have accordingly risen, and the same transaction as measured in gold

demands more paper notes. Belgian business has found a way out of this difficulty through the development of deposit currency. In 1920 1.229,116 items passed through Belgium clearing-houses, totaling 56. 785,000,000 francs; in 1921 1,746,581 items, totaling 105,150,000,000 francs; in 1922 2,244,211 items, totaling 129, 009,000,000 francs. Recent months show clearings at the rate of 180,000,-000,000 francs a year.

Retail prices continue to rise. March index is 408, compared with 371 last September and 397 in February.

BRIGHT OUTLOOK FOR MACK TRUCKS

For the quarter ended March 31 it will be surprising if the net profits of Mack Trucks, Inc., do not exceed \$1, 400,000—and this is always the learest three months of the year in the motor resulted in mixed changes. Profit-tak- truck industry. But business has been coming in very fast. In the month of March the company involced 762 trucks, and for the quarter gross business was not far from \$9,000,000. If business continues at the present rate, it will be no trouble at all for Mack to earn better than \$6,000,000 this year, or more than \$17 a share on 283,000 shares of common stock.

STOCK INCREASE OFF

BELGIUM'S LOSING SHIPPING VENTURE

Buying by State Into Lloyd Royal Belge Brings Difficulties -Liquidation Advised

The state guaranteed 98,000,000 francs of Lloyd Belge debentures held with its reorganization plan caused the banks to reconsider their action. In 1916 the Belgian Government hoped the Lloyd Belge would constitute a fleet for war service. Boats of

ping Board for \$13,000,000, later reduced to \$6,500,000. Important banks became involved, and the Government after its first uncertainty on the Continent, although guaranty felt compelled to guarantee additional debentures. When the banks paid the \$6,500,000 to the Shipping Board they took a mortgage on the vessels previously securing the

guaranteed debentures. Thus the Government now is guar anteeing paper which has no back- BELGIUM PLANS ing. Antwerp shipping circles advise iquidation. Vessels bought when sterling was between 35 and francs can be sold for pounds worth 85 to 90 francs. With this exchange some slight percentage could

be paid creditors. The Government's position of shareexistence for two or three years, when sterling may be lower.

Meanwhile the Belgian Parliament cannot find 10,000,000 francs for a dry 4 per cent in January, 1921, and a dock at Ghent or 30,000,000 for bridge at Antwerp, essential to Belgian shipping development.

POWER COMPANY

EARNINGS LARGER Northern States Power Company continued its steady growth during 1922, according to the annual report issued today. Gross earnings increased 7.09 per cent to \$13,881,919, and net earnings 11.01 per cent to \$5,781,092, as compared with the previous year.

After payment of the regular divi-dend on the preferred stock, quarterly dividends at the rate of 8 per cent annually were declared on the common stock, leaving a balance of \$1. 134,526 available for amortization, depreciation, and surplus Comparative earnings are given as

RAILROADS SEEK TO COMPETE WITH PANAMA CANAL

Lower Rates, Effective Soon, Not Expected to Be Sufficient Attraction

Transcontinental carriers are planning, a further reduction in freight rates to solve the problem of Panama

Canal competition Reductions effective April 17 of 8 per cent to 40 per cent on various commodities between Chicago and California are not expected to attract enough additional traffic to make them profitable. As a result, applicarates further to get business now go-

New Traffic Prospects

The new application will attempt to get rates on traffic bound for Pacific coast and arising in Chicago territory about equal to those existing traffic going via Gulf ports and the

Canal. Reduced rates effective next Tuesday were made to enable Chicago and middle west shippers to compete with eastern shippers shipping to the Pacific coast via Atlantic ports and the canal.

Traffic men who have studied the probable effects of this month's reduction say it will not increase traffic greatly, since the reduced rates will still be too high to allow competition with rates via Gulf ports and the

canal. Even approximate results of the rate reduction cannot be made, they say, but they do feel that the general result will be satisfactory. They aim to compete with equal rates as well as quicker service with steamship as far east as Harrisburg and mean to make a vigorous bid for Pittsburgh's iron and steel business.

Refrigerator Service Phase

The railroads are not apprehensive of losing refrigerated traffic, despite the institution of refrigerator service by steamship companies and a rather big plan of a group of fruit growers to organize their own refrigerator ship service, in the recently capitalized \$10,000,000 Motor Ship Service Corporation. The Pacific Fruit Express Company has grown rapidly in face of attempts of steamship companies

to get this business.
In 1920 it had 15,421 refrigerator freight cars. That year it bought 4000 new cars. In 1922 it bought 3300 more, a small number for replace-ments, and this year has ordered 5030 more freight cars and 300 express re-frigerator cars. The increase of capital from \$12,000,000 to \$30,000,000 por-

tends some other expansive move. L. J. Spence, traffic manager of the Southern Pacific, says the shipment of perishables by steamship is impracticable because of the necessity of at least two repackings en route, one from truck or car to ship on the Pa-STEAMSHIP HOLDERS cific coast, and another from ship car on the Atlantic coast.

> to be destroyed, whereas if this occurs to a shipment by rail it can be reconsigned to a near-by market. He says many shippers who have tried steamers have returned to use the

BANK EARNINGS INCREASED BY GOOD BUSINESS

Institutions Selling Security Holdings at High Prices to Meet Credit Demands

Banks throughout the United States, especially in the larger industrial centers, are expected to enjoy excellent earnings this year.

as a direct result, and higher money rates, earnings of the larger financial institutions will touch new records if the present impetus is maintained throughout the balance of 1923. Many

bankers expect it will carry through into 1924, at least.
While bank earnings in 1922 were

In 1922, banks made substantial profits railways of the country at a fair through investment accounts. Money rates were at a rather low level, and tion. The experience of this country earnings from this source were curduring the war, and of other countries tailed. There was only a moderate demand for commercial credit, and banks had to seek other employment for funds. Thus they were large buy-ers of high-grade bonds and first-class securities, which now show them large

Liquidating Securities

In recent months many banks have been liquidating their security holdings at advantageous prices, and using the proceeds to satisfy commercial demand for credit that has

sprung up. Then, too, lately large banks in the financial district of New York have been enjoying excellent profits through participation in syndicate underwrit ings and sale of new stocks and bonds. Business of this character has been unusually large of late, and earnings erty on a scale which never has been

enormous. A significant factor is that banks have been able to satisfy the larger credit demand with only moderate recourse to the federal reserve instilarger than if they were heavy borrowers at the central banks for re-

lending purposes. The recent upswing in many commodity prices has given many of the banks, especially in tural sections, opportunity to further reduce "frozen loans." The larger part of such obligations, bankers say, has been liquidated, and where total losses were entailed the amounts have been charged off.

Farm Products Higher

Many banks catering to the agriculcouple of years back, but recent higher prices for agricultural products have permitted many such institutions to that for a long time prevailed in those centers has been supplanted by opti-

while large banks in the big cities, in many instances, were also subjected to large losses in the deflationary period a few years ago, they immediately began to charge off all doubtful accounts and set up contingent

PORT OF BOSTON IMPORT BUSINESS

would militate against the import business of the United States has it has been for months, he says.

During March foreign merchandise

Boston, comparing with receipts of \$22,278,289 in March last year.

March import business reached \$8,- 250 per cent higher, than 10 to 15 529,650, the largest monthly total on years before? record for Boston, and comparing with revenues of \$2,409,549 in March, 1922. At the current rate collections should easily pass the \$75,000,000 mark, or more than double the showing for 1922 the previous record year. Wool arrivals have been enormous and constitute 60 per cent of the imbusiness in Boston. During March 64.537.200 pounds of the staple came in, comparing with 39.945,700 pounds in March, 1922. Since Jan, 1, more than 159,002.000 pounds of wool has

been received at Boston. Other large items of import at Boston include cocoa and beans from South America, while rubber receipts from British plantations have increased of late. Imports of this comfrom Brazil have also improved. In the first three months of this year more than 6,596,000 pounds of foreign rubber came to Boston, with 1,016,000 pounds in the initial 1922 quarter.

With the advent of spring, congestion at the piers caused by heavy winter weather, has disappeared and incoming merchandise is being handled with speed and efficiency.

LOFT, INC., SALES GREATER Sales of Loft, Inc., for the quarter ended March 31, 1923, were \$1,772.504, compared with \$1,441,561 in the similar quarter of 1922. Sales for two weeks immediately preceding and including Easter in 1923, compared with two weeks immediately preceding and including Easter, 1922, show an increase of more than \$80,000, or approximately

CUBA CANE SUGAR'S OUTPUT The Cuba Cane Sugar Corporation has made approximately 2,700,000 bags of sugar to date. This is nearly 30 per cent of the anticipated crop of 3,400,000 bags for the season. Should the full crop reach the estimated figure, it will be practically a duplicate in size of the 1921-22 crop, which was 3,379,-451 bags.

MANAGEMENT OF ROADS AT STAKE

Question of Private or Federal Ownership Squarely Up to Public, Says Expert

LINCOLN, Neb., April 13-"The paramount issue before the people of the United States at the present time is not merely how the railways shall be regulated, but whether private Under the stimulus of better busi-ness the country over, increasing loans impossible and government ownership impossible and government ownership unavoidable." said Samuel O. Dun, editor of the Railway Age, in an ad-dress here today before the Kiwanis,

Rotary, and Lions clubs and other local organizations. Continuing, Mr. Dunn said, in part: "There are just two policies of dealing with the railways that the people good the current year's returns prom-ise to surpass them by a large margin. One of these is that of buying all One of these is that of buying all the valuation, and taking over their operathroughout the world, shows the result would be excessive operating expenses and the incurring of heavy

> the taxpayers. In Private Hands

losses which would have to be paid by

"The only other policy that the public may fairly adopt is that of leaving the ownership and management transportation that the country re-

"The policy advocated by some o reducing the valuation of the railways by arbitrary legislation would be unfair, dishonest and ruinous. It would involve confiscation of private propapproached except in Russia.

"Since the real purpose of those who advocate this policy is, and its ultimate result probably would be, to force the country into adopting gov-Thir profits, therefore, are ernment ownership, it is hardly ceivable that the large majority of the public which undoubtedly is posed to government ownership can be led to support it after the public understands its true significance and its real purpose.

Freight Rates Phase

"The principal ground upon which the railways are now criticized and radical legislation regarding them is advocated is that their freight rates are excessible in proportion to prices, and especially in proportion to the y banks catering to the agricul-element were hard pressed a is that the average freight rate is now lower in proportion to the average wholesale price of all commodities than it was before the war. The prinlean house. Much of the pessimism cipal complaint regarding freight rates comes from the farmers, whose spokesmen claim that the prices of farm products are so low in proportion to railway rates that the farmers cannot ship their products at a profit. What are the facts?

"Just when this last advance in railway rates was made the prices of farm products suddenly declined until became relatively lower than freight rates. For 14 years previously, however, prices of farm products were relatively higher than freight rates, and during most of the time very much higher. Who has the better rial improvement that is growing right to complain—the railways, whose rates by regulation for 14 years were kept relatively lower than farm

"It is true that the prices of most grains are now lower relatively than freight rates. On the other hand, sheep are selling for 80 per cent more than before the war; cotton for more than 100 per cent more, and wool for BEST IN MONTHS 132 per cent more. If the freight rates on grain should be reduced be-The theory that the Fordney tariff cause the prices of grain are low, then obviously on the same principle the rates on these other farm products been fully exploded, according to should be advanced because the prices W. W. Lufkin, Collector of the Port of them are high. If freight rates of Boston. As a matter of fact, import business at Boston is better than should be reduced now because the prices of some farm products are low, how much, on the same principle, to the value of \$38,356,422 was received should they have been increased in 1920 when the average price of all farm products was 200 per cent higher, Customs duties collected on the and the price of wheat in Chicago was

Meeting "Radicals" Attacks

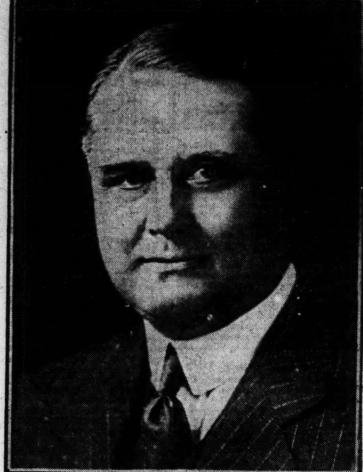

"Legislation, such as is proposed by Senator Brookhart and other radicals, is not really adapted to secure low rates. These men make their entire attack upon the net return of the railway valuation.

"In the year 1922, however, the that a sober passenger felt out of railways had left only 15 cents out of place in going forward to smoke. It each dollar they earned with which is rumored that a high railroad offito make improvements and pay interest and dividends, and spent 85 cents out of each dollar they earned in paying their operating expenses and taxes.

"Legislation which arbitrarily reduced the valuation and the net return earned would ruin the railways, and make it impossible for them to provide the transportation service the country requires, but substantial reductions in rates can be made possible only by more economical and effi-cient operation, which can best be secured under private management, and by reductions of railway taxes, which are now 175 per cent higher than 10 years ago."

Col. Robert W. Stewart

77HEN Col. Robert W. Stewart became chairman of the board of directors and executive head of the Standard Oil Company of Indiana, he in-W troduced new methods in that corporation's affairs. His first official act was to banish secrecy, except when necessary to the carrying out of plans still in the development stage. He encouraged publicity and had the company's advertisements so arranged that they treated more

its affairs than its products.

Directness of manner and a habit of thinking clear through a problem some of Colonel Stewart's characteristics. Under his direction the Indiana Standard has "enfranchised" its employees, given them a voice in its management, and allowed them to become partners.

Mr. Stewart was reared near Cedar Rapids, Ia. After having been graduated from Yale he went to the Dakotas, where he "punched" cattle, did a little newspaper work, and a number of other things before taking up the practice of law. In the Spanish-American War he became a Rough Rider. The Roosevelt ranch was not far from his home.

Mr. Stewart returned from the war with the rank of major and in 1899

colonel undertook the reorganization of the national guard of his State. He returned to the law and became a member of the South Dakota Senate. His work attracted the attention of Standard Oil officials. He was made general attorney of the Indiana company and in a few years was elected general counsel and a director. When in 1919 a reorganization of the company was effected, he was made chairman of the board, with offices

gangs of workmen, instead of the cusmen of each different craft, or trade. As the pay is computed by "piececompared with the 186 rules promulcompared with the 186 rules promule ern always has utilized green for its gated by the Labor Board to cover the cars, and possibly other roads keep cars, and possibly other roads keep

same general situation in union shops.

Mr. Fay concludes, "Nothing could be more diametrically opposed to the great Gompers; nothing more destructive of his vast spiderweb of sloth on the job than this quiet move in a country town. There is some-thing American about that State (Indiana) that some time, let us de-voutly hope, will spread to its not diana) far distant neighbor, Wisconsin."

Prohibition on Trains

Those who ridicule prohibition and carried a bottle or flask, and the majority of "crack" trains served liquor while running through "wet" territory. In the club cars of these trains the carousing sometimes was such cial was asked to resign several years ago, because of the disturbance he caused on a train while intoxicated. During federal control, a United States Senator created a scene on the Congressional Limited, by imbibing too freely while en route from New York to Washington. But it is seldom that one sees any drinking on a train at present. Presumably, an occasional nip is indulged in by some, in the privacy of a drawing-room, or elsewhere, but on the whole, prohibition is in force, and enforced, on railroad trains. Prohibition agents re-cently have been instructed to watch

drinkers. Many engineers were reputed to have taken a drink habitually before climbing into their cabs. The writer has seen the conductor of one America's most famous trains catastrophe which could be traced directly to intemperance on the part of employees, yet the absence of liquor will place a greater safeguard around train operations.

Standardized Equipment It may be stated, however, that for many years the most rigid rule on the

IN AN editorial in the New York of places where they are sold is sufgives an interesting analysis of the In connection with the pleas for steps taken by the locomotive shopmen of the Big Four (the C. C. C. & bility for a standard color for passenst. L. Ry.) at Beech Grove, Ind., to increase, rather than to retard, outnor the wearing qualities of various.

The 1800 employees at this point colors of railroad car paints, nor does have banded together under the name the expense seem to be a determin-of the "Associated Employees of Beech ing factor, for there is a certain Grove, Inc.," and it is understood that sentiment attached to the colors the basis of the idea is to be that of which different roads have adopted. rates of pay in accordance with the amount of work done by different vania coach painted other than red. Similarly, the Canadian Pacific, and tomary schedules of hourly wages for the Chicago & Alton favor red; the Chesapeake & Ohio, the Chicago, Milwaukee & St. Paul, and the Chicago work," the idea is to increase produc- & Northwestern have yellow coaches; tion and thus earn higher wages. In three months' trial, the output has increased 25 per cent, and at the same time the form time the force has been decreased.
Twelve rules govern the relations between employees and management, as compared with the 186 rules promulations to replace its wooden passenger equipment, it unfortunately is abandoning the orange color for the customary dark "blister green": the Great North-

> away from the customary black or "blister green." In the course of time, these distinctive colors become a sort of trade-mark and the abandonment of the established color-scheme is a matter for real regret to old patrons of the road. The ornamental paints used by the aforementioned roads are trade-

quent travelers. Five to 10 years ago, practically every traveling man chance to boast about "our road." It also seems unfortunate that the old custom of naming locomotives for their drivers has largely been abandoned, although this, of course, is partially due to the fact that engineers no longer have one regularly assigned engine. The Florida East Coast permits its engineers the use of certain decorations, and the "147" is resplendent in Masonic emblemson its dome. In passing, it is proper to state that this road has the cleanest engines of any road in the country. A clean exterior should denote equally careful attention to the inter nal parts.

Reduction of Costs When Walker D. Hines makes a statement, those who have had an opportunity to observe this man at close range, know that that statement deserves consideration. In his address before the Toledo City Club Mem bank—res acct (previously reported in The Christian Science Monitor) he states a funda-Railroad employees in the past have borne the reputation of being hard drinkers. Many engineers tion. Mr. Hines, while admitting that drinking whisky while on duty. While we have never heard of any raffroad service must be paid for and the service must be paid for and the failure to pay for it out of rates will result in its being paid for out of taxation, for the public must have railroad service, and cannot permanently accept the impaired service which would be the outgrowth of inadequate

LIVE-STOCK TREND **DURING WEEK AT**

Heavy Receipts Weaken Cattle
Market—Sheep and Hogs
Up—Sales Gain
CHICAGO, April 13 (Special)—
Heavy marketing of live stock this season compared with last year is reflected in the official figures just available from seven leading markets of the country. A combined total of 2,223,000 cattle, 503,000 calves, 8,572,000 hogs, and 2,641,000 sheep was disposed of at these centers in the first three months of this year, a net gain of 2,309,000 head, compared with the corresponding period last year. There of 2,309,000 head, compared with the corresponding period last year. There was an increase in cattle at every point. All the markets showed substantial gains in hogs, and sheep showed a net gain of 260,000, largely at Omaha and St. Joseph.

Larger receipts weakened the cat.

at Omaha and St. Joseph.

Larger receipts weakened the cattle market this week prices being off about 50 cents from a week ago. It takes a very good class of steers to sell at \$9@9.75, and a price of \$8.50@9 requires very good medium-weight killers. Plainer and common short-turn to their native land.

The general shortage of cane cutters is, of course, an important factor in this showing. To relieve labor deficiencies Haytian labor was recently imported under strict regulations that provide for their early return to their native land.

The tardiness of sugar production, fed steers have been selling largely at \$8@8.25, inferior light weights at under present market conditions, is \$7.50@8, best cows at \$6.50@8, and an unmixed blessing for United Fruit,

although about 27,000 more have been received so far this week than last. The top for choice light is \$8.50; bulk light and medium butchers go for \$8.30@8.45, desirable mixed and heavy butchers \$8@8.30, and mixed packings

Mutton is in better demand, and consequently the sheep market is firmer. Most of the supply consists of wooled Colorado-fed lambs held at \$14.40@14.50, with some lighter weights listed up to \$14.75. Good shorn light lambs are favored at \$11 @11.50, heavy at \$9.50@10.75; spring lambs of good quality \$17@20, with not many available. Sheep are also scarce and steady to strong, wooled scarce and steady to strong, wooled cover the full year's dividends, are selling at \$9@10 and shorn \$7.50@ reasonable to anticipate.

CHICAGO, April 13-Irregularity ruled in the live-stock markets yesterday, cattle generally being slow and rather weak. Hogs were steady to 10 cents higher, and sheep were steady, without much change. Receipts, prices and conditions were

Cattle—Receipts, 13,000; beef steers and butcher she-stock, generally 10c to 15c lower; spots 25c off on in-between grades lower; spots 25c off on in-between grades beef steers and plain yearlings; top matured steers, \$10; several loads, \$9.75@ 9.90; best yearlings, \$9.60; bulk beef steers and yearlings, \$8.25@ 9.50; canners and cutters, steady to weak; bulls, steady to strong; vealers, 25c to 50c lower; strictly good to choice feeders, steady; stockers, slow, weak; bulk bologna bulls, \$4.75@ 4.90; bulk veal calves to packers, \$7@8; bulk canners, around \$3.50; bulk beef cows, \$5@6.75; bulk beef helfers, \$6.50@ 7.75.

cows, \$5@6.75; bulk beef helfers, \$6.50@7.7.5.

Hogs—Receipts, 29,000; slow, generally steady to 100 higher than yesterday's average; big packers, mostly steady to 56 higher; bulk 160 to 220-pound average, \$8.35@8.45; top, \$8.50; 225 to 325-pound buschers, \$8.10@8.30; packing sows, largely \$7.15@7.40; desirable 110 to 180-pound pigs, \$7@7.50; plain light kind, \$6.75 down; estimated holdover, 14,000.

Sheep—Receipts, 13,000; fat lambs, steady; top, \$14.60 to packers, shippers, and city butchers; bulk wooled lambs, \$14.25@14.60; heavles out at \$13; clipped lambs, largely \$10.60@11.50; one load choice 84-pound average, \$12; heavy clipped lambs, \$9.85@10.25; sheep, around steady; two loads 106-pound fall clipped Texas wethers, \$9; choice 120-pound clipped ewes, held at \$8.25.

FINANCIAL NOTES

Postal savings deposits in the United States total \$132,180,000. The Cuban Association of Mill Owners and Cane Farmers estimates the sugar crop at 3,743,942 tons.

A Brussels dispatch says a loan to construct a \$100,000,000 tunnel under the Scheldt River will be financed by a group of American banks. The United States Shipping Board's loss in the first two months of 1923 was at the rate of \$50,000,000 a year. In the last 10 days of March, Germany's expenditures, figured in the present depreciated currency, were 12,511 times as great as in the corresponding period of 1913, while income amounted to only 1421 times as much. On March 31 the debt totaled 7,641,134,000,000 marks.

UNCERTAINTY IN PRICE TREND OF LIBERTY BONDS

Commodity Price Rise Sends Issues Down-British Buying a Supporting Influence

With the final operation in refunding the Victory Loan only a month away, attention of bankers and bond men is once more turning to the market for Government securities. At present it is more than ordinarily difficult to forecast the future of prices, On the one hand purchases of

Libertys by the British Government for tender in payment of its debt and sinking fund purchases by the Treas-ury will total some \$80,000,000 by July 1. On the other hand the exemption of large blocks of Libertys from the surtax rates will expire by limitation on July 2. Shifting to Tax Exempts Under the law the income from

\$5000 Liberty 4s and 41/4s is fully taxexempt to any individual permanently, \$50,000 additional until July 2, 1926, \$75,000 additional until July 2, 1923 and \$30,000 additional first-second 41/4 s until July 2, 1923. Before this date there will undoubt-

edly be some shifting on the part of large holders to tax-exempt issues and same time that British and Treasury purchases tend to raise them.

If these two factors cancel each other Libertys may be expected to follow the course of the general market. At present the bonds are enjoying a of any important Cuban producer. In rally from the low points reached at a 6-cent market like the present that the end of March. At that time all the Liberty 41/4s except the third issue were selling under 97. In the mean-time they have risen about a point on

This rallying tendency is expected to continue for at least several weeks. A continuance of the rise of commodity prices, however, is expected to send bonds downward once more even-tually, and it would not be surprising if this summer or fall should see bonds selling below their March lows.

British Buying a Factor In buying bonds for tender in set-tlement of their debt the British will naturally buy the cheapest issue, either the first or second 44s. This will tend to diminish any spread in price between the different issues of Libertys.

Theoretically, the issue with the longest term will sell at the lowest price when Libertys are selling at a discount, while that with the most distant date of optional redemption will command the highest premium when Libertys are above par.
On this basis the second 44s, due

in 1942, but optional in 1927, are the least attractive issue. As a matter of fact, they sold the lowest of any of the 4%s in 1920 and at the smallest premium last summer.

The relationship between the Treasury 41/4s, 1947-52 and the Liberty

is an anomaly at the present time. With the most distant maturity of any of the Government issues the Treasury 4%s should theoretically sell below the Libertys. The fact that no sinking fund is

provided for the issue and that it is not included in the tax-exemption provision whereby \$50,000 Liberty 4s or 41/2s may be held free from surtax until 1926 reinforces this conclusion. The issue is small, however, and not subject to redemption before 1947. When the trend of bond prices once more turns upward 4½ per cent gov-ernments non-callable to 1947 will look

others even on a substantially lower yield basis. SOME MONTHS OF WHEAT SELL AT

attractive. On this basis far-sighted

investors prefer this issue to the

SEASON'S PEAK CHICAGO, April 13-The wheat market here took a decided upward swing today during the early dealings. Opening prices, which varied from %c decline to ½c gain, with May \$1.24¼@1.24½ and July \$1.22¾@1.22¾, were followed by a slight general setback and then by a sharp upturn all around. July and September touched new high price records for the

After opening % to % higher, May 80% to 80% @80%, the corn market sagged a little and then scored moderate general gains.

Oats opened 16 cent lower to a like advance, May 46, and later showed gains for all deliveries. Provisions were strong.

IAPANESE BUYERS OF SUGAR PAY TOP PRICE FOR RAWS

NEW YORK, April 13-Japanese importers are the latest foreign buyers to come into the local sugar market. Two cargoes, totaling 12,000 tons, sold today for June shipment for 6 cents a pound, f. o. b., Cuba, were said to be for Japanese interests. Canadian and British importers have been heavy buyers in the last two weeks.

CHINA MAY SOON PAY PUBLIC DEBT

Financial Rehabilitation to Be Attained by Consolidation of Public Debts

PEKING, Feb. 26 (Special Correspondence)—No progress has been made in the financial rehabilitation of China since the adjournment of the Washington Conference, said Dr. Jacob Gould Schurman, recently, in addressing a large gathering of the American community of Peking, at the Grand Hotel de Pékin. Public debts remain unpaid, while creditors clamor. He quoted G. Padoux, adviser to the Chinese Government, as saying that a 2½ per cent surtax would, however, provide for debts and amortization payments by 1927, paying off all debts by 1944. One important stipulation, however, is that all increases of Chi-nese tariff be received by customs administration in one lump sum.
"The Financial Reconstruction of

China and the Consolidation of China's Present Indebtedness," is the self-explanatory title of a memoran-dum issued by Mr. Padoux for the National Commission for the Study of Financial Problems.

The problem is not primarily a finan-cial one, but rather a constitutional and political question, to be solved by the readjustment of relations between the provinces and the Central Government. The Manchu régime had a well-balanced system of internal administration, which allowed a large autonomy to the provinces, while affirming the superior authority of the Imperial Government. When additional revenue was required for new obligations, the provinces showed the same considershown by Peking for local interests.

This system, however, was shattered by the revolution of 1912.

The Central Government lost its

control of the provinces and the local chiefs found it more profitable to take sides against the Central Government. This condition of affairs cannot improve materially unless the nature of the relations between the Central Government and the provinces be clearly defined (which is the constitutional side of the problem), and unless the new distribution of power is accepted by, or forced upon, the provinces (which is the political side).

The resources of China are so great and the charges so light that even a moderate improvement in the political situation would remove many of the financial difficulties. Governmental, provincial, and local taxation combined probably does not exceed \$500,000,000 annually, which in a country of 400,000,000 inhabitants means an average of \$1.20 per capita—practically negligible when compared with taxa-tion in other countries. The public debt of China, too (exclusive of railway debts), is less than \$1,900,000,000, or \$4.75 per capita. Compare this with the British and French national debt, which amount to 250 times as much! And for every 10-cent increase in per capita taxation the Chinese Govern-

ment would receive \$40,000,000 a year.
The unsecured indebtedness of China at the middle of 1923 may be estimated at \$570,000,000. Consolidation of these at \$70,000,000. Consolidation of these debts is imperative, and will be successful if sound and reliable security is offered. The best form of security is that afforded by the customs revenue. An increase in import duty to 5 per cent, which came into force on the state of the security is that afforded by the customs revenue. Jan. 17 of this year, will be raised in a few months to 7½ per cent. The yearly returns from this source, combined with the increase resulting from the natural development of trade, will amount by 1928 to \$132,000,000.

The balance available for consolida tion after payment of charges on cus-toms revenue would increase each year, and it therefore seems that a scheme may be based on that revenue, provided that (a) means be devised to find additional funds during the first years, and (b) that interest only on the consolidation bonds be paid up to 1931, redemption beginning in 1932. The available surpluses from 1932 onward should secure amortization in a

short period of time.

The main characteristics of a proposed consolidation scheme include: (1) No distinction between domestic and foregn debts, with regular and punctual performance of all Govern-ment obligations. (2) Substitution of customs revenue and salt revenues for all others. (3) All net revenue after payment of customs administration must be appropriated for the service of the consolidation of bonds. No other expenditure to take precedence of payment of interest and amortization of these bonds. (4) Suppression of the likin cannot be carried out until the relations betwen the Central Government and the provinces have been clearly defined.

AUSTRIANS LOSE MONEY IN GERMANY

Real Estate and Stocks Crash-Investors Withdraw Too Late

VIENNA, March 19 (Special Correspondence)—Many Austrian capital-ists, who rushed to invest their moneys in Germany when the mark began to fall, now regret their pre-cipitancy. Houses, industrial securities and general stocks and shares, which chiefly attracted these speculators, have all fallen in value and their holders are trying to get rid

of them with as little loss as possible. The rush of Austrian capital into Germany began last July, and reached invest money in Germany. Most of the the earlier investors bought houses in Berlin. Some, who had paid only a deposit, made money, because when time came to pay the balance the mark had fallen much lower. The mark had fallen much lower. The more solid investors paid the whole of the purchase money and sold only in exceptional cases. At the time of buying, the houses seemed cheap buying, the houses seemed cheap came buying. But the investor failed to remember the Rent Restrictions Act in Germany, and that the German landlord has much heavier burdens without the slightest knowledge of any of these industries are now accompandence)—Winnipeg is to have a special correspondence)—Winnipeg is to have a special correspondence)—Winnipeg is to have a special committee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new building, accommittee is now at work on plans and the new factorial to the five deverties the formation available at present work on the five domining dearer. TRAVEL

T is fitting indeed that The Leviathan should sail on the anniversary of the birth of The Republic. For the sailing of The Leviathan marks the beginning of a new epoch in the history of The American Merchant Marine—a new triumph for the American people.

For months thousands of American workmen, engineers and architects have been converting the giant Steamship Leviathan from a swift transport into a luxurious ocean liner.

Now as the work nears completion, it is obvious

a new standard of ocean going luxury has been set. For elegance of appointment, for sheer beauty

and for masterful achievement in the art of ship-

building, The Leviathan eclipses anything the world has ever known.

The Leviathan is the largest ship in the world. Her gross registered tonnage is 59,956.65

The first sailing from New York to Cherbourg and Southampton will be Wednesday, July 4th.

Hundreds of requests for reservations already have been received. Americans prefer the great Leviathan—the largest and greatest ship in the world -an American ship. So if you would be aboard when The Leviathan starts her epoch making voyage on July 4th, write today-or telephone any tourist agency or communicate direct with the United States Lines.

NEW CABINET MEN ALL AUSTRALIANS

Identity of the Nationalist and Country Parties Has Been Fully Maintained

MELBOURNE, Feb. 19 (Special Correspondence)-For the first time in its history Australia has a Cabinet composed entirely of natives of the Commonwealth. There are 11 members-six Nationalists and five Agrarians-one less than in the previous

Premier Handicapped

The Cabinet is by no means the strongest that could have been formed from the anti-Labor forces, but in making his selection Stanley M. Bruce, the Premier, was handicapped by the necessity of holding the balance benecessity of holding the balance be-tween the two parties of which his following in the House will be composed, and also of giving representa-tion to each of the six states. Still, to omit such men as Mr. Pratten, Mr. Watt, and the two Millens, seems to be courting disaster and the probability of a "cave" being formed inside the two parties is already being can-vassed. Six of the present ministers have never before held Cabinet rank and many members believe that a greater stiffening of experienced men would have been desirable.

The agreement under which Dr. Page, acting for the Country Party, arranged to support Mr. Bruce provided that the identity of the Nationalist and the Country parties should be maintained, that Dr. Page should take precedence in the Ministry after the Prime Minister, that the portfolios of the Treasury, Postmaster-Generalship, and Works and Railways Department, together with the Vice-Presidency of the Executive Council, should go to the Country Party, and that in any Cabinet division on strict party lines Mr. Bruce should not vote, thus giving the Country Party and Nationalists equal representation

The New Cabinet

Only three members of the Hughes Cabinet-Mr. Bruce, Mr. Groom, and Senator Pearce-are included, and the exclusion of Mr. Pratten, Mr. Foster, Senator E. D. Millen and Senator J. D. Millen, has caused surprise. The new Cabinet is as follows:

Stanley Melbourne Bruce, Prime Minister and Minister for External Affairs (Nationalist, Victoria). Earle Christmas Grafton Page, Treasurer (Country Party, New South

Wales). George Foster Pearce, Minister for Home Affairs and Territories (Nationalist Labor, West Australia).

Lyttleton Ernest Groom, Attorney-General (Nationalist, Queensland). William Gerrand Gibson, Postmas-ter-General (Country Party, Victoria) Austin Chapman, Minister for Trade and Customs and Health (Nationalist,

New South Wales).

NOW KNOWN TO BE RICH IN RADIUM

ORE FOUND IN KATANGA IN 1915

Discovery Made by Professor of Mineralogy While Katanga and the financial world, al-Rummaging in Cases of Metal Ore

gathered around this discovery, quite comprehensive, by the way, when it is considered that one gram (1-28th of following up his professional mania) an ounce) of the bromide of this metal is worth £60,000. It happened, in 1915, that an English prospector some cases of metal ore, and, in a small case coming from Katanga, he named Sharp was traveling in this region near Chinkolobue, in the valley of the Kasolo, an affluent of the Panda, when his boy brought him a lump of ore which he had just found. It was of the color of yellow ocher, very dense, of a kind unknown to Sharp, and that for the excellent reason that it was a hitherto undiscovered quite a series of radioactive minerals. This particular case had been presented to the custodian of the British Museum, who, after having made his choice, returned the remainder to the antiquary. That being so, the latter sold the contents of the case at a relatively low price in the world, Brig.-Gen. Ronald Marr to Professor Schoep, who had at once to Professor Schoep, who had at once to Professor in Winnipeg re-

from 1915 to 1921 the discovery of this metal should have remained unknown to the world, more especially established the origin of the famous its being a radio-active mineral, as minerals; then he determined on their Mr. Sharp, who was an agent of the Union Minière du Haut Katanga, He discovered that among the condoubtless informed that company of tents of his case there were six new branches of a regular military force, doubtless informed that company of his discovery. It may here be mentioned that a radio-active mineral affects a photographic plate in the absence of light. The radio-activity of "Kasolite," in remembrance of the one of its distinctive features, including the company of the custom. These were having a regiment of light horses, armored cars and machine gun sections. The infantry section is one of its distinctive features, including the custom of the custom. a body is often due to the uranium it contains, and which, by decomposing produces radium, which possesses an named in honor of Jan Dewindt, for-

CHINA STUDIES RAILWAY PROBLEMS

Soldiers Engaged to Guard the Roads Become Banditti, Then Return and Re-enlist

HARBIN, March 5 (Special Correspondence)-Railroading in China, and particularly in Manchuria, pre sents problems that the executives of the iron highways of the United States are not called on to meet or solve.

There has been a recent compilation of the troubles that have beset the Chinese Eastern, the railway that is under the guard of a large part of the army of Chan Tso-lin, with soldiers in numbers estimated to be anywhere from 10,000 to 50,000 stationed along its 1100 miles of track.

Soldiers Frequently Turn Bandit It must be borne in mind that when the builders and owners of the road were in control, the bandits never were in control, the bandits never-came near it. There were more Rus-sian soldiers than were necessary, but they were maintained as a part of the far-flung military enterprise of the Tsar's Government, and were used to impress China and Japan, rather than as protection against the raids than as protection against the raids of the ragged banditti that prey on the unarmed and the helpless. Thus it is easy to make comparisons. It is well known that the garrisons of Chinese soldiers frequently take to the hills, bearing with them their arms and ammunition, and after a raid or two, are accepted back into the fold of the army, without punishment.

For the better part of last year con-

ductors were so maltreated by sol-diers that it became necessary to send special interpreters and guards on every train. Many of these railroad ticket' takers were sent to the hos-pitals, badly crippled. Engineers also came in for a share of the beatings that the soldiers take a delight in administering to men of the white race. So far as can be traced, there has never been an instance where punishment has been meted out to these brutal maimers, but lengthy cor-respondence has taken place. There has been an increase in letter writing, but no stop to the outlawry of the Police Useless

Besides the army, there are railroad police, who cost the Chinese Eastern around 1,500,000 gold rubles a year, or about 750,000 American dollars. If the police protected the road, the out-lay would not be so bad, but as far as known there has never been a raid frustrated or a bandit captured by

Last year showed no improvement over 1921, and there is nothing in sight to indicate betterment in 1923. The road is running deeper and deeper in debt; there has been an increase in the number of Chinese troops; revenues are not increasing, and the physical improvement of track and rolling stock that has marked the present Russian management will begin to retrograde shortly.

being 13,231,600, the actual deficit In these circumstances the debate by the end of the year being esti-was depressing, and members carried mated at 7,989,000 rupees. The deficit, on the argument in an atmosphere of however, has actually turned out to be 14,683,000 rupees. During 1923-1924 the expenditure is expected to exceed the revenue by 5,100,000 rupees, but this includes 333,000 rupees for capital outlay on the important Sardar Canal. Excluding this, the revenues are estimated to fall short of the expenditure by 4,768,000 rupees making the total deficit by March, 1924, over 19,400,000, or almost 20,-

000,000 rupees. New Taxation Imposed

At length the council is imposing new taxation-enhancement of court duties, and stamp fees and the imposition of a duty on motor vehicles. These are expected to leave the Government with a balance of 4,508,000 rupees at the end of the financial period. The Government of India is lending the United Provinces Government the sum of 10,281,000 rupees on account of the Sardar Canal.

NEW YORK, April 12—The United States Military Academy meets the United States Naval Academy and Harvard University meets the University of Pennsylvania this afternoon in the semifinal round of the épée championship division of the Intercollegiate Fencing League championship tournament, the opening bouts of which took place yesterday at the Hotel Astor.

In the preliminaries, the West Pointers captured 7 bouts, and lost 5; the Navy men won 10 and lost 6; the Red and Blue took 8 and dropped 4, while the Harvard representatives won 6 and lost 6. The winning members of these teams incidentally qualified individually for the semifinals. H. J. Boulton '25, a Yale man, was the only other swordsman to qualify.

J. M. Pesek '23 of the Army was the individual star in the division, winning 6 out of 8 bouts in which he took part. E. H. Price '23, also a Cadet, was only slightly behind, winning 5 SABER

FOILS

sout of 8 bouts in which he took part. E. H. Price '23, also a Cadet, was only slightly behind, winning 5 bouts and losing 3. These two men stand out as probable winners of the individual title. C. H. Calloway '24 and J. B. Keating '23 of the Navy won and lost the same number of bouts as Price; but inasmuch as Price defeated both of the Annapolis men, his record must be taken as the best. Pesek defeated Keating, but lost to Calloway. Boulton of Yale, also had a tally of 5 bouts won and 1 lost, incidentally defating Pesek.

In Strip No. 2, D. M. Thomson '24 lost only 1 bout in 6. As there were only four teams on this strip, each man was only called upon to fence six bouts. Thomson's one defeat went to the credit of D. D. Kittell '24 of Hamilton College. Three other men in this strip qualified, each winning 3 bouts and losing an equal number. Those qualifying were: D. F. Cavers (23, A. K. Stebbins '24, H. P. Tasker '24 ws. Annapolis (H. E. Scott '24, W. S. Stubbs '25 vs. Pennaylvania (2apt. H. G. Stubbs '25 vs. Pennaylvania (2apt. H. G

7 to 6. Final score: Yale 17, Columbia 8, Hamilton 2.
Strip No. 3—Harvard (Capt. E. H. Lane '24, E. I. Lane '24, R. E. Fleer '24) vs. Dartmouth (Capt. R. F. Hertzberg '23, H. F. Llao '23, E. G. Hawley '24) vs. Technology (J. F. Walker '25, Luis Ferre '24, George Elkins '24). Hertzberg defeated Walker 7 to 3, Ferre 7 to 4, Elkins 7 to 6, E. L. Lane 7 to 5, Fleer 7 to 5. Llao defeated Ferre 7 to 6, Fleer 7 to 5. E. H. WASHINGTON WINS IN NINTH NORFOLK, Va., April 13-One run in the ninth inning won the exhibition baseball game for the Washington Americans against the Boston Nationals, by the score of 5 to 4, here yesterday. Boston led until the fifth inning when Washington took the lead. A. J. Conlon, former Harvard University player, batted for Pitcher Benton in the sixth and scored Horace Ford from second base with a single, tying the score. Genewich went in to pitch for the Braves and the winning run was scored off him in the ninth, on a base on balls, a sacrifice and a single by Third Baseman Conroy. Warmoth, Washington's left-handed pitcher, worked the whole distance and improved as the game progressed. Left Fielder Bagwell, of the Braves contributed the only home run of the game, making his second off Warmoth in different games. The score by in the ninth inning won the exhibition in different games. The score by

MICHIGAN NEEDS **GOOD PITCHERS**

Baseball Team Is Strong in Every Other Department of Game-Squad Is Touring South

ANN ARBOR, Mich., April 7 (Special Correspondence)—Baseball prospects at the University of Michigan are problematical this year, depending on the development of recruit pitchers to assist H. J. Liverance '23, only member of last year's pitching corps available.

With the exception of the pitching staff, Michigan has one of the best fielding and hitting teams in its history, with an entire veteran outfield and three veteran infielders.

Although the squad has been ham-pered by unfavorable weather conditions, the annual southern trip is exgood line on his pitching prospects.

If the pitchers do well, Michigan stands an excellent chance of plac-ing among the leaders in the Intercollegiate Conference race this year

Capt. I. C. Uteritz '23 Michigan Varsity Baseball Team

south this year, the Wolverines meeting the University of Vanderbilt, the University of Georgia and Alabama the University of Cincinnati.

scheduled for the Michigan nine this season, including the eight games played on the southern trip, 11 "Big Ten" Conference engagements, a in two-game series with the University of Washington nine, the Michigan Agricultural College, Notre Dame University and Western State Normal.

In the "Big Ten" Michigan will meet and Leibold.

Batteries—Martin, Karpp and Clarke; Fullerton and Pichinich, Umpires—Ehmke University and

Ohio State University, the University of Wisconsin, the University of Iowa the University of Illinois, and the been booked with Northwestern Uni-

versity. Coach Fisher is well supplied with veteran material and bright-looking recruit prospects for every position except the box. R. T. Knode '23, one best first base players and leading hitter in the Conference will play

his third season at that position.

Capt. I. C. Uteritz '23 is one of the best baseball players turned out at the Wolverine university since the

graduation of George H. Sisler. Uteritz is a senior, having played for two years previous to this season on the Michigan nine. He has played one year at second base and one year ortstop. He is an excellent fielder and a good hitter and for the third year will be the lead-off man on the Michigan team this year, Besides playing baseball, Uteritz was står quarterback on the Michigan football team last fall and was selected by Walter Camp on the all-American third team Uteritz, whose home is at Oak Park Ill., will graduate next February, and while this is his third season of baseball he will be eligible for the foot-

ball team again next season. Meyer Paper '23 will be stationed in his accustomed position at third base. He is a .300 hitter and a valuable defensive man on account of his fast

fielding. G. S. Haggerty '25, basketball star has earned the job as custodian of second base. Haggerty is one of the best fielders on the squad and will add considerable power to the Wolverine attack.

In the outfield Michigan will be represented by three veterans, J. H. Shackleford '23, H. G. Kipke '24, and Adregt Klein '23. Shackleford will again bat in the cleanup position. L. W. Coleman '25 stands an excellent W. Coleman '25 stands an excellent chance of beating the veteran Klein defeated Exeter City this afternoon, out for the left field job. Klein is a 3 to 1, in an association football game.

Must Scouts Study Kansas Basketball

Special from Monitor Bureau Chicago, April 18 UST bashetball scoats go to M Kansas to learn how to play the game! The University of Kansas won the Missouri Valley Con-

ference basketball championship with 16 straight victories. The Kansas City Athletic Club won the champlouship of the Amateur Athletic Union of the United States. Kansas City High School of Kansas City, Kan., won the national interscholastic basketball championship tournament at University of Chicago, in which to teams from all parts of the coun-try participated. Another Kansas high school, Westport, lasted well into the late rounds.

Naturally Kansas is enthusiastle about the game after such a per-formance all in one season. That accounts for the great crowds and Chamber of Commerce committees who met and welcomed the returning high school champions following the Chicago tourney.

good fielder, but is weak with the bat, while Coleman is a much better hitter Liverance, the only veteran returning from last year's pitching squad, will bear the brunt of the work this spring, although Coach Fisher will be forced to use several other pitchers during the season.

Practically no pitching material was available from last year's freshman squad and the work of developing pitchers from new material is a hard one.

Four recruit pitchers in addition to Liverance were taken on the southern trip, including J. S. Benson '25, who appears to be a likely prospect, M. P. O'Hara '23, R. E. Baker '25, and E. C. Gibson '23, the latter a left-hander. None of these men have had much experience. H. H. Mudd '23 and R. T. Noonan '23 were second-string pitchers last season but neither is capable of pitching Conference ball.

Of the recruit infielders, G. C. Dillman '25, L. C. Vanboven '23, W. B. Giles '25 and G. C. Weitzel '25 are the most promising.

J. L. Blott '24 will handle the catching this season. Blott served as second-string catcher to H. A. Vick '22 last season, and should have a good season this year. V. L. Swanson '24 and E. R. Slaughter '25 are the second-string catchers.

Recruit outfielders, who have made

a good impression, are R. T. Ash '25 and E. B. Bachman '25. The complete schedule:

plete schedule:

April 7—University of Kentucky at Lexington: 9-10—Vanderbilt University at Nashville; 11—Alabama Polytechnical Institute at Montgomery; 12—Alabama Polytechnical Institute at Auburn; 13-14—University of Georgia at Athens; 16—University of Cincinnati at Cincinnati; 21—Ohio State University at Ann Arbor; 25—Michigan Agricultural College at East Lansing; 28—University of Wisconsin at Ann Arbor.

GERMAN TRAINER ENGAGED the University of Illinois, and the University of Minnesota in home and itself is not invited to participate in home series while a single game has the Olympic games of 1924, its athletic tingent. Paul Kellner, a well-known swimming instructor at the German Academy for Physical Exercise, has been asked to train the Olympic swimming team from Holland. Kellner is now working with the Austrian Swim-ming Association in Vienna, after having given a course in aquatics in Czechoslovakia.

> JOHNSON CITY, Tenn., April 13-By winning the fourteenth game of the series here yesterday 8 to 7 the Chicago White Sox have assumed a lead over the New York Giants with seven victories and one tie game to six defeats. Blankenship pitched for Chicago and did fairly well. He allowed 13 hits, gave three bases on balls and struck out three. Scott and Jonnard pitched out three. Scott and somate picture for the Giants and were found for 16 hits. Kamm, the new White Sox third baseman, led at bat with three hits in New York ... 02 3 0 0 0 0 2 0 -7 12 1 New York ... 02 3 0 0 0 0 2 0 -7 12 1 four times up.

CINCINNATI WINS, 6 TO 3 CINCINNATI, April 13—The Cincinnati Nationals defeated the Louisville team of the American Association here yesterday, 6 to 3. Luque pitched for the winners and allowed only six hits. Dean and King were in the box for the visitors and were found for 11 hits. Louisville outfielded the winners, making only one error to five for the Reds.

CANADIAN GOLF DATES MONTREAL, April 13-Dates for the Canadian women's golf championship, to be played over the Mount Bruno links in this city, have been fixed as Sept. 17 to 22. The Canadian open championship will be played on the Lakeview course at Toronto, Aug. 2 to 4.

Weissmuller Case Causes Discussion

Chicago Men Believe Swimmer Should Make Trip

CHICAGO, Ill., April 13—Hope that an exception may be made in the case of John Weissmuller of the Illinois Athletic Club, world's greatest speed swimmer, who was included in the list of amateur athletes barred from making foreign trips this summer by the Amateur Athletic Union of the United States, was expressed by officials of the case of John Weissmuller of the Club, world's greatest speed teams leave for warmer climates on their annual spring training trips within the next few days for the purpose of perfecting themselves for the Coming regular season contests. Unlike most part of the Club, world's greatest speed to the coming training trips within the next few days for the purpose of perfecting themselves for the Coming regular season contests. Unlike most part of the Club, world's greatest speed to the case of the goal position. Sipp won his letter in basketball, but has never played lacrosse before. Two other basketball men new to lacrosse who are making good on the Crimson team are 1. G. Black '24 and Samson Merriam '24, playing first defense and center recommendation. "We already have the money from England for Weissmuller's passage," said William Bachrach, his coach, who planned to go along, "and we hope that some way may be found to let him go. There seems to be no just grounds for ficiuding him. He was invited from abroad and will be back

n time to compete for our own national championships." letic Committee, declared that so far are scheduled, and the as Weissmuller is concerned, the rul- round robbin tournament that ended ing is unjust. He stated that a trip last Monday at the Longwood courts decided which men were to make the abroad this spring would be an ad-vantage when Weissmuller goes back trip. sending an I. A. C. water-polo team

EUROPEAN TRIPS

Amateur Athletic Union of United States Excepts Only Harvard-Yale Track Team

NEW YORK, April 13 (By The Asvard-Yale track team, which is scheduled for a meet with Oxford-Cambridge in England next July, permission would be refused to all athletes under A. A. U. jurisdiction to take part in April 14—Agawan Hunt Club, Providence; 16—Country Club, Norfolk, Va.; 19—Chevy Chase Country Club, Washington, D. C.; 21—United States Naval Academy, Annapolis, Md. A. A. U. jurisdiction to take part in international contests abroad this year.

The decision, reached upon the recommendation of the International Af-number, not counting managers and doubles champions, in every division fairs Committee, of which J. B. Mac-trainer, all of whom are under the in which there is a man competing. Cabe of Boston is chairman, was made to bring about concentration upon this country's participation in the Olympic games at Paris next year. Recommendation to the same effect previously was made by W. C. Prout of
Boston, president of the A. A. U. and
dable nine by the time the regular the American Olympic Committee.

The attitude taken by the A. A. U.

will affect a number of prospective foreign invasions by American athletic stars. These included sending track and swimming teams to the thirtieth anniversary of Gothenburg, Sweden, followed by invitations to compete in Germany, Denmark, Norway, Holland and Czechoslovakia; a water-polo team to visit a number of land by John Weismuller, Illinois A. C. star, and the Misses Helen Wain-California sprinting star, to Paris for

the international college meet in May. pitchers. Immediately after the decision had

der an arrangement with the English Great Britain, except in Olympic tion the following schedule for a period of years had been agreed upon:

years had been agreed upon:
Yale-Harvard vs. Oxford-Cambridge, in
England, 1923. Oxford-Cambridge vs.
Princeton-Cornell and vs. Yale-Harvard,
in the United States, 1925. PrincetonCornell vs. Oxford-Cambridge, in England,
1926. Yale-Harvard vs. Oxford-Cambridge,
in England, 1927.

Mr. McGovern also said that in all probability, outside of Olympic years, as much at the opening practice the relay teams of Oxford and Cambridge would meet the University of Pennsylvania alternately in England and the United States. The Britons world promises to be represented this year are sending over a team for through the training of the Dutch conthe Penn relay carnival, April 27 and 28, at Philadelphia.

> BROOKLYN BEATS NEW YORK, 8-7 yesterday, the final score being 8 to 7 York team tied an early lead by Brook-lyn in the eighth, but the Nationals came back in the ninth with the one run necessary to win. Meusel batted best for New York, making two home runs, a triple and a single h. four times up. Left Flelder Wheat was Brooklyn's star batter, making three hits in five trips to the plate. Poor playing by New York men allowed Brooklyn its winning run in the ninth. The score

Batteries—Smith, Mamaux and Taylor, Hungling; Mays, Roettger and Schang, Hofmann. Umpires—Klem and McGowan. Time—lh. 40m. ROTH FEATURES IN PENN VICTORY

PHII. ADELPHIA, April 13—Pitcher O. W. Roth '24 is credited with a victory for the University of Pennsylvania nine over the Ursinus College team, that he practically won by his own achievements, defensively and offensively. He allowed Ursinus only four hits in six innings and made two triples in three times at bat. W. H. Hunt-zinger '23 finished the game in the box from the sixth inning on, the opponents making only one hit. Ursinus assumed the lead in the first three innings, but Penn forged ahead in the fourth and increased its score as the game propressed while Ursinus failed to count again. The score by innings:

Batteries—Roth, Huntzinger and Gold-latt, Maher; Wood and High. Umpires— lactzel and JJohnson. Time—1h. 51m.

HARVARD TEAMS READY TO LEAVE ON SOUTHERN TRIPS

The champion Yankees were in Francisco, pennant winners, led team 15 games out of a total of 18 played. fourth place in club batting with .287. The following season Kansas ended Rogers Hornsby's market of .401 was the season in a tie with the nine of highest in the National. The St. Louis 89 games for an average of .357. Washington University, St. Louis, for second baseman was at bat 623 times Schleibner, Little Rock first baseman.

five players about whom the 1923 points diamend team is being shaped. Bloomer Giants. is swinging the bat for Kansas for the third season as are Wenzel and fielder, who has been recalled by De-Lonborg and Staplin are playing their second year of varsity

Outdoor practice has proceeded for over a month. Although the inclement weather has prevented Coach Clark from making consistent improvements in the men's playing form, he has dwelt at length on the fundamentals of the game and expects to have the squad whipped into fairly good shape Formation of New League Will for the first game of the seasonwith Iowa State College at Ames, Ia.,

From present indications the lineup for the Kansas opener will be as follows: Bloomer in the box and Frazier on the receiving end of the battery; I. L. Cole '25, first base; W. J. Campbell '23, second base; Captain Wenzel, third base; Staplin, shortstop; L. C. Wiberg '23, Lonborg, and C. R. Ken-

candidates originally, is as follows: M. M. Price '25, J. M. Davis '25, D. S. Armstrong '25, H. G. Lutz '24, E. V. Luse '25, G. J. Kotapish '24, W. E. Brennan '25, R. S. Hollingsworth '25, and D. L. Benson '23. Both Armstrong and Hollingsworth look good

in outfield positions. Bloomer, last year's captain, is considered one of the best pitchers in the valley. He is a god strategist. Wiberg is the only left-handed pitcher ready had been arranged by other that Coach Clark has to fill the shoes of C. C. Custer '22, who filled his niche in the Kansas squad by baffling conference hitters the whole season. Davis and Kennedy, the latter a pitcher on the 1922 freshman nine, are

balwarking the Kansas pitching staff. One deciding factor in this year's race for the valley title will be the reputed strength of the conference teams in general. Washington University and the University of Missouri loom up as particularly formidable opponents, and, in the opinion of the Kansas coach, these two universities will make strong bids for top posi-

tions in the percentage column.

The batting averages of the letter men who are out for the 1923 Kansas nine are: Captain Wenzel, .302; Lon-borg, .368; Staplin, .324; Frazier, .270;

Which of the games with the Univesity of Nebraska will be played at Lawrence and which at Lincoln has not en decided as yel former manager of Pittsburgh, will probably return this spring for a few days to help whip the Kansas nine condition for the season. aided Coach Clark in 1922. The Kansas schedule for the season is as

20, 21-Iowa State College at Ames; 23, 24—University of Iowa at Iowa City; 27, 28—Kansas State Agricultural College at Lawrence. May 4, 5—Washington University at St.

Louis: 11, 12—University of Missouri at Lawrence; 14, 15—Washington University at Lawrence; 18, 19—University of Mis-souri at Columbia; 25, 26—Kansas State Agricultural College at Manhattan. June 1, 2—University of Nebraska.

CENTRAL A. A. U. BASKETBALL Special from Monitor Bureau

CHICAGO, Ill., April 13-After close battles here last night the Waukegan. Ill., and the Lakeview Community girls team are to play today for third place in the Central Association Amateur Athletic Union basketball championships. The finalists, Harvey, Ill., and the Union basketball championships. ships. The finalists, Harvey, Ill., and the Uptown Brownies. Chicago, play tomorrow night. Harvey scored a nar-row victory over Waukegan in a closely guarded semi-final game. Near the close the score was tied 10-all and the final shot rang out as the ball was in the air for the basket that gave Harvey the victory, 12 to 10. The Harvey girls were smaller but had better distribution of scoring ability. One girl gathered all the Waukegan points. The final battle is forecast today between the Armour Post American Legion and the Independence Park Plues. The former yesterday defeated Lafayette K. of C. by 29 to 9 while the Blues de-feated Capper and Capper, 27 to 12.

GREAT GAME FOR HOME RUNS MONROE, N. C., April 13—No less than 15 home runs were made in the game between the Rochester club champions of the International League, and the Philadelphia Athletics second team here yesterday. Fred Merkle, former first baseman for the New York and Chicago Nationals, made four of them, while Clarence Walker of the the International League, Athletics made three. The score of the game was 29 to 11, in favor of Rochester. The winners made 25 safe hits to 10 for the losers. Miljus and Drake pitched for Rochester, while O'Neill and Omer were in the box for

142 games, hit safely 246 times and scored 134 runs. The St. Louis team

Robert Fothergill, Rochester outclub led in team batting with .302, honors.

College Golfers in for a Good Season

Be Added Incentive

NEW YORK, April 13-College golfers will have an added competitive incentive this season as a result of the formation for the first time of an intercollegiate golf league.

Seven colleges have entered the league, but because they do not represent the complete membership of nedy '23, in the outfield. Although the Intercollegiate Golf Association, partially tentative, this lineup looks the league winner will only be better on the field than any other combination at the present time. The rest of the squad, which has will be reserved for the team victor been pared down from a total of 35 in the annual college tournament, scheduled at the Siwanoy Club, Mount Vernon, N. Y., June 26 to 30.

The league members are Columbia, Dartmouth, Harvard, Pennsylvania, Princeton, Williams and Yale. Cornell was represented at the organiza-tion meeting, but has decided not to take part in the race. Penn State and Syracuse both have recently been adcolleges prevented either from join-

Opening league matches are scheduled for May 5.

NEW ORLEANS, April 13—Outfielder
B. Shaner was sold to the Cleveland
American League Baseball team yesterday by the New Orleans club. Shaner
came to the Pelicans from the Danville
club of the Piedmont League, where he CLEVELAND BUYS SHANER

G. H. Sisler, St. Louis Browns' first baseman, led all batsmen in the American League with a percentage of 420. He was 586 times at bat in pions, being in fifth place with .287. Paul Strand, Salt Lake outfielder, led the Pacific Coast batters with an

batting with .298.
Schulte, Mobile catcher, played in Conference honors.

J. B. Bloomer '24, Capt. J. H. Wenzel '23, G. C. Frazier '23, J. C. Lonborg '24, and W. W. Staplin '23, are the led in team batting with .308, three with .296.

Outfielders Herman of Omaha and points better than the champion East of Wichita led Western League batsmen. Herman, in 92 games, rolled fielder, who has been recalled by De-troit, led the International League 168 games, batted .391. Tulsa, the batters with .383 for 101 games. His flag winners, batted .323 for club

MUCH INTEREST TAKEN IN EAST-WEST TENNIS

NEW YORK, April 13-Much interest is already being taken in this district over the coming East.vs. West lawn tennis team matches which are to be played this summer and the first of which is scheduled to take place at San Francisco, May 4, 5, and 6, with the return one at the courts of the West Side Tennis Club, Forrest Hills, a few days after the national men's single championship at Germantown, Pa., in September. W. T. Tilden 2d and

and Vincent Richards, will carry the East's colors in the men's singles and doubles. Mrs. B. E. Cole 2d of the Longwood Cricket Club, who recently won in both singles and doubles at the national woman's indoor championships, will be the third eastern representative.
The personnel of the western team

has not yet been deflitely announced, but Miss Helen Wills probably will appear in the women's matches.

REED LEADS AT TRAPS LAKEWOOD, N. J., April 13-E. E. Reed of Nassau, L. I., and Boston Athyesterday. S. Crothers of Philadelphia, was second with 93, and W. H. Mathers of Trenton third, with 92. Fred Eslear, holder of the national Elks title, was high among the professionals with 94.

PITTSBURGH WINS EASILY
EVANSVILLE, Ind., April 13—With
Adams and Boehler pitching finely and
allowing the opposing batsmen only one
hit, Pittsburgh easily defeated, Evansville here yesterday, 10 to 0. Crandall,
Faulkner, and Zeigler pitched for the
home team and were gound for 15 safe
hits. Pittsburgh also played errorless
ball, while the locals made six errors.

Playing fields, which were considered leaf year will be again put into

Democracy and Education

To the Editor of The Christian Science
Monitor:

It is with much circumspection that
I, a man who never went to school,
take issue with the Monitor, from which
I have received so much. Possibly, however, the viewpoint of one so far removed from academic circles might contain a helpful suggestion that would not yet answered. They have recently had conventions in Chicago. Boston, Clevetain a helpful suggestion that would not tain a helpful suggestion that would not occur to those more happily situated, just as an amateur sometimes discovers a star that the vigilant eye of the astronomer at the end of the Yerkes telescope has failed to detect.

I refer to two editorials on education in the Monitor of March 1 and March 10 exiting "Education and March"

10 entitled "Education and Manual Labor" and "Limiting School Privi-leges," in which you criticize Dr. Henry S. Pritchett, president of the Carnegie Foundation.

A careful reading of the report referred to leads me to the conclusion that Dr. Pritchett has done a most valuable service in giving us the in-formation and pointing out the road that must be taken in the future if disaster is to be avoided.

disaster is to be avoided.

Such opposite conclusions arrived at by two persons evidently desirous of reaching the truth, can be accounted for only by looking at the premises from which each starts out. It would seem that you are convinced that the present system of education in our rubble schools is democratic and above. With many of them, however, their works and those we meet daily clearer by the amount of labor, money, and effort spent in these ornate buildings? Is the sense of citizenship better understood? Have they any better background of history? Can they read more intelligently? Do they show more respect for the rights of others? public schools is democratic and above public schools is democratic and above criticism, to deprive one of any part of which is a curtaliment of our democratic ideals. To be convinced that this is not a fact one need only to look about him or to read the Monitor, for therein on March 13, Dr. Thomas Mendanhall of the Ohio University is quoted as saying: "Under the shield of democracy our educational system is becoming the most undemocratic in the two democratic in the two democratic in the two democratics are desirable result, said. "It is all becoming the most undemocratic in the two democratics are desirable result, said. "It is all right if they like it." Now the condition of thought of such a man is well world" while Mr. F. W. Sanderson, head tion of thought of such a man is well

now to send Muhammad to the moun tain, the mountain is to be brought to

vocates of the new system have not yet answered. They have recently had conventions in Chicago, Boston, Cleveland, and Rochester, at none of which has this all-important question been discussed so far as is discernible, yet it is the crux of the whole matter. this is settled nothing can be that is permanent. The reply by the doctor is the most va contribution to the subject that I have had the pleasure of reading, and is especially helpful to one who has been

asking of late such questions as: Has all this higher education increased respect for old age or honor to parents? Has the common 'anguage of the street or field improved of late? Does the conversation usually heard at social gatherings show any marked advance? Are the reasoning powers of those we meet daily clearer by the

ings? Is the sense of citizenship better understood? Have they any better background of history? Can they read more intelligently? Do they show more respect for the rights of others?

With many of them, however, their conversation is yea, yea, and nay, nay, while with the great majority it would be forwhetter if their conversation. master of Oundle, in an address at Leeds. England, said: "Our present public school system is candidly based"

I ask is this education, that is now

on training a dominant class."

It is a noticeable fact that most persons discussing this question take your attitude; for instance, our city schools are assumed to be beyond criticism, and starting from this premise a number of presumably well-meaning people start out to secure legislation to destroy the "greasy mechanic," while the farmer word schools and sends contact the "greasy mechanic," while the farmer word schools and sends contact the "greasy mechanic," while the farmer word schools and sends contact the "greasy mechanic," while the farmer word schools and schools and schools and schools and schools and schools are sends and schools are sends and schools and schools are sends and schools are s

LELAND STANFORD HAS NOVEL PLAN

Inter-Class Athletics, Intended to Supplement Intra-Mural Sports, Adopted

PALO ALTO, Cal., April 7 (Special Correspondence)-A new and novel plan for inter-class athletic activities. intended to supplement the intra- ka mural sports already fostered by the university, has been adopted at Leland Stanford Junior University. The class athletic championship will be decided annually by a comprehensive schedule of major and miner sports running through the school year, and the numerals of the winning class and the runner-up will be inscribed on a permanent trophy cup.

M. N. Reed '23, J. J. Collins '24, C. E. Beardsley '25 and R. M. Kay '26, presidents of their respective classes and the staff of coaches, with Dr. W Barrow, director of athletics, and W. Davis, director of intra-mural sports, have worked out a plan of inter-class contests in football, basketball, baseball, soccer, swimming, track, cross-country running and tennis, with a system of point scoring.

The class with the largest total at

the end of the year will be declared champion and, with that winning the second largest total, will have its name inscribed on the permanent trophy cup. A committee comp Director Davis, Track Coach R. L. Templeton, and President Reed of the senior class have active formulation of plans to further the their charge. After details have finally been worked out, it will be presented to the students' executive committee for final approval.

Each class will be expected to select a class manager, the four to form a committee which will determine questions of eligibility and such matters in conference with the gymnasium staff and coaches. The schedule of interclass competition will be under the general direction of Davis.

It is the plan that the four classes shall contribute a part of the money needed to provide a handsome cup for the permanent trophy.

The first award will be made at the end of the present year, the seniors already having a start on the other classes through having won both basketball and baseball. Points probably will be counted: first place, 5; second, 3; third, 2, and fourth, 1. .The new plant will not supplant the

Reed of Nassau, L. I., and Boston Ath-letic Association champion, scored 95 out of a possible 100 at the annual ties and competition between various spring shoot of the High Gun Club here groups living on the campus. Heretofore, intramural sports have lagged far behind intercollegiate contests, and have received little attention both from the university officials and the undergraduate body. Now, however, ccording to the plan which has been

ered last year, will be again put into shape for the use of the baseball teams this spring. One of these, according to the plans made a year ago, will be located near the present library, in the heart of the campus. Others are indefinite, but probably will be near the present playing fields, north of the university main build-

fall, when 90 men appeared for interclass football, all uniforms and other acouterments were supplied by the university, an undertaking new to

With the start already made by the senior class, it probably will have little difficulty in winning the first trophy, and thus engraving its numerals permanently as the first winner. Varsity athletes will be barred from any interclass competition, as was the rule in other intra-mural sports. That is, a man who has made his letter in baseball will not be permitted to enter any inter-class contests in the same sport.

WOMEN PAY SIXTH OF NEW YORK TAX

Special from Monitor Bureau NEW YORK, April 13-Women paid \$5,108,073, or 16.5 per cent (about one-sixth) of the total 1921 New York state income tax, according to figures compiled by the State Tax Commis sion and made public here today. It mission that women will pay even a higher percentage on this year's in come tax, which is now being col-

"The figures are the latest available," says a statement from the com-mission. "They show there were 1,-089,129 returns from New York state residents. Of these, single women not heads of families made 172.717 returns: married women made separate returns to the number of 20,618, and unmarried women as heads of families made 28.687 returns. The single women not heads of families paid \$2,-742,863; married women making separate returns, \$1,969,739, and unmarried women as heads of families,

\$395.471. "This tax paid by the women was based on taxable income amounting to \$578,023,500. or 15.1 per cent of the total taxable income of New York state residents, which amounted to \$3.819,225,900."

hits to 10 for the losers. Miljus and Drake pitched for Rochester, while o'Neill and Omer were in the box for the losers.

THREE STARS DEFEATED ROCHAMPTON. Eng., April 12—Three of Britain's foremost professional golfers were eliminated in the first round today of the Gochampton Challenge Cup tournament, carrying prizes totaling £200. Abe Mitchell was defeated by Charles Johns, of Purley-Downs, 2 and 1. George Duncan was eliminated by Edward Ray, 1 up. and J. H. Taylor lost to W. B. Smith, of Halleywood, 2 and 1. Mitchell and Taylor were first and third, respectively, in the qualifying play yesterday.

Starting and Drake pitched for Rochester, while out to secure legislation to destroy the rural schools and replace them with of secure legislation to destroy the rural schools and replace them with of structures at the cost of bonded indebtedness the rural people are simply unable to meet. Anyone protesting against this, or pointing out the fatuity of it, is immediately called undemotous, and other epithets familiar to those to the special by Charles Johns, of Purley-Downs, 2 and 1. George Duncan was eliminated by Edward Ray, 1 up. and J. H. Taylor lost to W. B. Smith, of Halleywood, 2 and 1. Mitchell and Taylor were first and third, respectively, in the qualifying play yesterday.

BULGARIA IMPRISONS FOR LIFE SIX FORMER CABINET MINISTERS

Constitutional Changes Recently Effected Will Expedite Phone Glendale 364 the Trial, Demanded by Referendum, of 22 Others

garian newspapers received in this be introduced at the forthcoming trial city tend to show that the conviction will constitute the agrarian view of and sentencing of six Bulgarian for-mer cabinet ministers to imprison-Balkan wars. ment for life for their part in aligning their country with the Central Powers in the World War was effected by a tribunal made up, not entirely of judges, but partly of politicians, without any juridical knowledge. Several of the judges were peasant deputies, who did not in any way respond to the tests of literacy. Among the men convicted was Vassil Radoslavoff, who was Premier of Bulgaria during the

By special legislation passed by the Sobranje, under the present Adminisment upon the ministers, who accused of exceeding their constitutional authority in deciding the country's course without action by the Sobranje, of bribery by contractors, and of jockeying the country into an attitude of opposition to the Entente, without its consent, was withdrawn from the regular judiciary. A tri-bunal, consisting of members of the judiciary and of deputies was constituted for the task.

Some Rights Preserved Certain of the constitutional rights of the prisoners were, however, assured to them under legislation which was not repealed. It was these that had protracted the proceedings since 1918, when the men were arrested. Many constitutional changes have been effected since the trial began. Under these changes the 22 former ministers who were subjected to trial under the verdict of the referendum last January, which decided by a margin of two to three for prosecution, will bave

their cases considerably expedited. These 22 include the membership of three successive cabinets—the Gues-Malinoff and Daneff-Todoroff ministries. And the Government of Premier Stamboulisky did not elect to assume responsibility for fixing upon individuals the responsibility for a crushing national disaster, it re-ferred the issue to a popular referen-Black and white ballots were tries are equally suggestive. given out. The black ballot meant a thirds of the people demanded the subjection of the ministers to trial. Like the court that reached the decision just announced in the case of slavoff and his Cabinet, the tribunal will not be the regularly con-

unpatriotic or ill-judged conduct during the period beginning with the First quantities to combat the imported clusion of the Second Balkan War face the charge of responsibility for the infliction of a national disaster upon their country exceeded in only by the outcome of the World War. Daneff is accused of having caused, by his unyielding policy, the outbreak of the Second Balkan War, that came after the first without his critics that his attitude of intransigency was the chief cause for the

INDIA IMPORTS MORE TEXTILES

Khadder Movement Lost Power in 1922, and Reaction Began

BOMBAY, Feb. 26 (Special Correspondence)-The figures of mill production in India and of the imports of foreign varn and piece-goods during the past nine months afford an interesting reading. When Mahatma ment, India was importing about £54,so marvelous was the progress of the movement that within a year the value of the total annual imports was resince the beginning of 1922, a reaction making a steady headway, is actually the following figures: The value of eight months, ending November, 1922, was £26,000,000, as compared with £27,000,000 in the corresponding per-

lod of 1921. On the other hand, the value of cot-ton goods imported from foreign coun-tries in the eight months ending with November, 1922, was £26,000,0 compared with £20,000,000 in the corresponding period of 1921. It will thus be seen that while Indian pro-duction decreased in value by about £1,000,000, the imports increased in value by about £5,000,000. The value of goods woven in Indian, in the month of November, 1922, namely, £3,500,000, though higher by £520,000, than that of goods woven in November, 1921, was lower by £300,000 than that of foreign goods imported

The statistics of yarn production in vember, 1922, the total quantity spun vote for prosecution. Almost two- in Indian mills was about 61,000,000 pounds, as compared with 53,000,000 pounds in November, 1921. This is no doubt satisfactory, but it is found that whereas India is successfully resisting the imports of yarn of coarse counts, she is importing an increas ing quantity of yarn of finer counts court, made up partly of duly constituted judiciary and partly of deputies.

Vassili Radoslavoff left Sofia when and the merchants are palming off the former King Ferdinand did, and he cloth woven of such yarn as countryhas remained on the Continent ever made cloth. The Congress workers since. The 22 ministers accused of are now encouraging mill owners to spin medium and fine counts in large

yarns of these counts. VALUE OF AMERICAN PRODUCTS DECLINES

WASHINGTON, April 13-The value of the products of American manu-facturing industries, according to the census for 1921, now nearing comple tion, will be shown to be approximately \$40,000,000,000, compared with \$62,000,000,000 in 1919.

sigency was the chief cause for the In 1921 production, purchases and breaking out of hostilities between sales were less than in 1919, but the erbia and Bulgaria.

The court that is to try Gueshoff, fall in prices.

HOUSEHOLD PAGE

London Dressmaker Tells Clever Ways of Making Trimmings They should be placed at intervals around the edge of the skirt with lines of the plain chain-stitch carried right up from each leaf to the top of the trock.

REALLY, when you come to think of it, the secret of the Paris model is that it has unusual model is that it has unusual

it with the aid of a nail and a hammer, and then over-sewed it with

"Then you can make lovely ornaments of aluminum. I designed and cut out a shape and then, with my nail and hammer, made holes in it forming a pattern, and filled up the holes with ordinary brass paper clips. Very effective buckles were executed in the same way. Another pretty notion for decorating a cloth dress or coat is to cut out leaves or medallions around the edges and then bind the the Maison Drecoll. It is easy to wear match made of chiffon and lace edges with cloth and sew on the orna-

"You can also cut little squares of one of the fashionable girdles. This tures that this Parisian dressmaker broidery worked in chain stitch, and looks very nice on a cloth dress or serge coat frock. The best of alumiis that it goes well with practically any color. One of these girdles looks very nice, too, on a cotton frock. Flowers and Cords of Odd Materials

"The flowers which are used so much for girdles, hip pieces, and the ends of sashes can be made from velvet, silk, or chiffon, gold tissue or gold ribbon. Taffeta is the easiest thing to handle as petals made of it stand out so well. I used blind cord for the centers of my flowers, frayed out and with a little gold paint on the top for the pollen. The petals of chiffon flowers are made on loops of fine wire. For the velvet flowers however, you have to cut out a paper pattern for the petals, for unless do this it is easy to get away from the right shape. It would be wise for anyone who is not good at designing to copy an artificial flower. After cutting the petals in the velvet you take two of them and face them to each other, sew them together at the edges and turn them inside out.

'I achieved beautiful effects with cords made of crepe de chine. To make these you cut the crepe de chine three inches wide and double it and sew it together three-eighths of an inch from the fold. Then you sew a needle in at one end and pull it through the little slot that you have This draws your wide turnings inside the slot to form the padding of the cord. Four or six of these soft cords plaited together make a delightful girdle or belt, or a trimming for the edge of a cloak.

A lovely cloak that I made was shot-blue hand-woven silk lined with jade-green crepe de chine. I had plaited cords of the shot carried down the fronts and finishing at the back with a flat bow and long ends weighted with flowers to tone touched with gold. There were also plaited cords of jade-green crepe de chine on the inside edge of the coat

The Versatile Bobbin

have made wonderful tassels from bobbins! I used to gild or paint the reel, and get a hank of silk and put it through the hole in the reel, leaving a loop of about 1½ inches at the top, where I put either a knot or a little finish of beads. Sometimes I cut some of the strands of the silk at the top and let them fall down over is very popular the reel or caught them in around American women. the center of it with beads or silk. I painted the reels mauve, or purple, has a coat or a cape to match. Per- many models. Another popular type of or blue, or black, according to the haps the short cape to the hips is most color scheme, and used them for the ends of girdles on jumpers or serge frocks. In gold they looked lovely on comprising a double roll. If a lining or less geometrical lines which indievening coats. Tiny reels make fas- is necessary, it is invariably made of cinating little tassels to hang at the the contrasting material used in the ends of loose sleeves.

"Occasionally I used the reels horizontally. After putting a hank of silk through the reel and knotting it at each end, and then leaving it to fall in a tassel, I took up a few strands on each side and tied them together at the top to form a loop by which to hang the reel. Sometimes these strands were finely plaited.

"I also made chenille tassels. To do this you take several strands of chenille and tie them together at the

T.D. WHITNEY COMPANY

37-39 Temple Place 25-31 West Street BOSTON

"But I think that the most beautiful trimming that I ever did was made from an ordinary dog chain, which cost about eight pence. I used one on model is that it has unusual trimming that cannot be bought ready-made in the shops. I was wondering the other day whether you could not write an article on the odd things that can be used as trimmings," said a friend who not long since retired from a dressmaking business of which the success was certainly in part due to the originality of the models produced.

"I used all sorts of strange things—tin tacks, and blind cords and staple pins—and people wondered how we got our effects," she went on. "One of the most successful ornaments I ever made was of tin! I simply got the lid of a tin box and pierced holes in it with the aid of a nail and a lit with the aid of a nail and a local and and round the top. Then put a hole in the end of the strip with a tin tack, and through this thread chenille in several colors and tie it.

Common Things Become Chic

"You can make a very effective trimming for a stockinette or gaberdine frock with yards and yards of plain crocheted chain-stitch in wool, or crochet silk, or cotton. Draw a design of a leaf and cut out several in buck-ram is entirely covered. Some of these motifs are charming in navy blue wool on a beige stockinette frock.

Which the end of the and through this through the tin tack, and through the top cost about eight pence. I used one on a draped evening gown of copper-tinsel brocade. The chain was entirely covered with buttonhole stitch in copper-tinsel thread and was used as a girdle to catch the folds of the gown. The gown had another very effective trimping for a stockinette or gaberdine frock with yards and yards of plain crocheted chain-stitch in wool, or crochet silk, or cotton. Draw a design of a leaf and cut out several in buck-ram of a leaf and cut out several in buck-ram of a leaf and cut out several in buck-ram of a leaf and cut out of the most successful ornaments I buck-ram is entirely covered. The chain was entirely covered with outcombole stitch in copper-tinsel thread and was used as a girdle to catch the folds of the gown. That gown had another to

cate the influence of the Tut-ankhamen discoveries.

Navy rep and navy serge and trico-tine are all materials used for street clothes. The newest of these is a fine years ago, for the modern version is almost as soft as satin.

In choosing material for the pres-ent fashions, the most necessary feature to obtain is that of suppleness, for the silhouette of the mode in the majority of cases is narrow with a suggestion of drapery. It is only for evening and semievening wear that customer wants costumes for a fancyone sees a model with a really wide

For walking dresses the line is straight, sometimes broken with a flounce, which is generally more pointed than circular in character. If fullness is suggested, it is usually in the nature of straight narrow pleating.

Evening Effects of Shadow and Light

In the evening a room will be changed by the lights that are used. Shadows to soften corners and brilliant illumination to emphasize beautiful features of the room are the effects for which one should strive. In shades the glazed lamps are almost supplanting the parchment shades, for it is claimed that they give more luminosity.

ability to see things as she could make them, instead of in the condition they were offered for sale.

In a certain gift house in an American city there is a growing depart-ment for which Mrs. Alleman is responsible, where the slogan is, "We can make it for you." Whether the dress party, favors and party decorations made from special designs, or scenery and stage settings for amateur theatrical performances, Mrs. Alleman and her 26 assistants will

provide it. Mrs. Alleman has crowded into her life a great deal of creative work. Born and brought up in Parkersburg, West Virginia, she got what art training she could at home, and then spent five years at the Pratt Institute Brocklyn, New York. When her training was finished she started an art shop in a western city, but it was discontinued when the United States entered the war.

Then she went to the company with which she still is and worked in their studio, painting decorations on small

rep serge that has a suggestion of crepe about it. This makes a delightful morning frock with the edges bound with a rouleau of black satin or trimmed with black flaxen braid.

For more dressy occasions moire silk makes a smart toilet, and is popular here. It is a very different affair to the silk of this name one knew 10 years ago, for the modern version is times as large as it was when she went to work, five years ago. One of the lines which she has been pushing steadily is fancy dress costumes for pageants, theatrical work, masquerades, and so forth. It was found to be difficult to advertise this particu-lar branch because it is almost im-

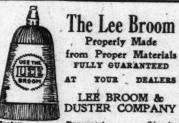

possible to describe in words the beauty of fabrics, color combinations, and decorations. It is typical of Mrs. Alleman, that when she faced this problem, she solved it in an original way. The

which to show fancy es, for it is to the stage that en turn for ideas when they are

women turn for ideas when they are planning amateur theatricals or fancy-dress parties So Mrs. Alieman planned and put on a costume show at one of the playhouses.

It is the custom of this theater to run two feature films, with a headline vaudeville act between. Mrs. Alleman persuaded the theater manager to accept her costume show in lieu of the vaudeville act. Then she planned to fill 35 minutes with events interesting to the audience. There was a cos-

to the audience. There was a costume parade, of course, that delighted everyone with its colors and lines; but it could not continue for 35 min-utes. Mrs. Alleman, therefore, arranged for singers and dancers and provided them with costumes which would fit into the picture she built. The costumes were completed and the tableaux arranged, when it was found necessary, in order to show the full beauty of the costumes, to provide special stage settings. Undaunted,

Mrs. Alleman and her staff went to

"an amphibious production" and—
"(having alfo paffed the examination for lieutenant of the navy) I am enbrings his narrative to a conclusion,

But you notice he says nothing about holding his pen again, which though a small instrument can be a heavy one. Too heavy, perhaps, or I might go on and tell of that interesting book of Thomas Hall's, his "Description of the West Indies," printed in London in 1610, and another ancient volume called "The Golden Trade, or Richard Jobson, Gentleman, printed in me those, and as these lines about an Irish sailor are really due to his kindness he should have the space allotted

Here the clock in the Metropolitan Here the clock in the Metropolitan tower has struck two. The house is silent and very dark. Only my room has a light under a green shade—and Peter, having had enough comfort for one evening stretches himself and takes his departure. So I put down the book, and taking a last look out of my window go to bed, thinking rather thankfully that though our walls may be narrow and we live but walls may be narrow and we live but anello. The headland juts far into on a city square, yet the world is wide and we may see through the eyes of many a traveler, choosing our own look too peaceful ever to have been century to view it, whereas sailing mixed up with political turmoff and now on any steamer whatever we can intrigue. not so very much of that.

Prairie

Written for The Christian Science Monitor How far the waving acres reach Of lush and tangled prairie grass; How vagabond the path that trails To mark the jocund winds that pass.

How nine the hirds on lifting wine Within the blue and tender sky; How watch below the flowers a-blo The sun upon his journey high.

How very old the prairie is, And yet again how very young; How all its virgin loveliness Is on its gentle wideness flung

How free the fancy and the step When morning on the prairie smiles. How solacing its quietness O'er all its green expanse of miles. Maude De Verse Newton

Japan, "A Children's Paradise"

Imagine some old-fashioned garden in a veritable riot of bright-hued flowers - popples, roses, geraniums, hollyhocks, asters and other of our midsummer blossoms in their gayest midsummer blossoms in their gayest on the person or the subject por-dress—and then fancy these flowers trayed. The idea which he tried to in-trauensvollen Lämmer in die Hürde genden Rute, die berichtigt und leitet, changed into round-faced children; corporate in marble or bronze was trägt, und die älteren Schafe, die in nicht zurückgehalten wird. Wir brauthe metamorphosis will give a good idea of the charm of Japanese children playing on a sunny spring day.

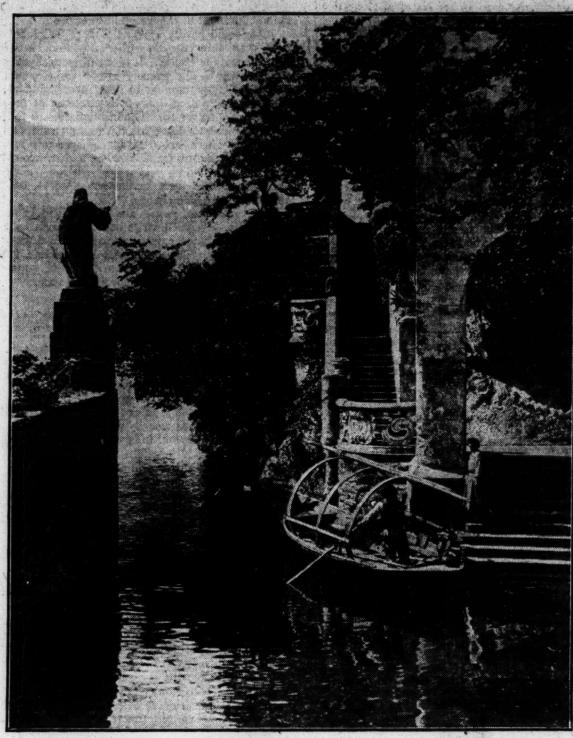

The adult Japanese as seen on the street in native dress is a sedate and illustrated by a story about the painter almost somber figure for the most panter panter part, but the love of color in the Japanese nature finds outlet in the clothes of their children. Flaming reds—ver—of their children in the clothes inserted a partridge. But when he found that admiration for the lifelike—an Zeiten, wo wir unter dem Druck können, und zwar wenn wir vor einer children. milion, crimson and cherry—blues ness of the partridge tended to disthat rival the mid-summer skies, vivid tract the attention of visitors from pinks and greens and yellows, blaze on the kimono-clad children in fantastic patterns of flowers and fruits, birds and fish, and not infrequently the flercely-bewhiskered head of a tiger almost covers the back of some for boys and the daintier patterns for

girls. Contentment beams from the chubby, placid faces; the velvety dark eyes gaze with eager curiosity, and, for the most part with a fearless friend-liness, on the stranger, and to many travelers one of the great charms of the country is its children. They the country is its children. They
literally swarm in the streets; babies
are bound firmly to the backs of the

of the rod; for it corrects a condition mony.

THE shepherd was a familiar figure of inharmony, and guides the sufferer THE shepherd was a familiar figure in Biblical days; and because he was associated with the beautiful pastoral life, as well as with the needful and useful activities of his time, the name came to be used, frequently, as a symbol of that which was kind and lovely,—a protector, a guide, a provider. And so the Psalmist wrote beautifully and often of the shepherd, likening the heavenly Father's care and comfort and provision for us. His children, to that of the shepherd for his sheep. Christians have read and his sheep. Christians have read and adjust his life so that he may live in sung and deeply appreciated that wonderful twenty-third paalm, which begins, "The Lord is my shepherd; the daily consideration of others and the consequent joy of that experience. Editorials

THERE seems to be little doubt that Lenine has been forced by physical disability to abandon the active lead-

The Lesson of Lenine's Career

ership of the Soviet Government and that he is never likely to resume control. Thus ends one of the most amazing careers in history. Lenine came of noble Russian stock. Early in life he joined the revolutionary movement, which aimed at overthrowing the autocratic government of the tsars, and was forced to flee the country. Once

abroad, he became still more interested in revolutionary Marxian Socialism. He became convinced that the primary cause of all social evils was the system which permitted the control of the resources of nature and of the instruments of production to be owned by the few, who were thereby enabled to charge their neighbors for the use of what nature obviously intended to be shared among all. To the system of private property, like Marx before him, he attributed the fact that in every country in the world there is to be seen a wealthy minority which lives, not by working, but by owning, while the majority, from generation to generation, is forced to work endlessly for wages which are always at or near the subsistence level. His interest, therefore, became centered on a world-wide social revolution, rather than on a political revolution on the narrower Russian front. With a number of fellow enthusiasts, living mainly in Switzerland, he devoted his immense talents to working out, down to the smallest details, a complete scheme of society, based on the communal, instead of the private, ownership

The World War created an opportunity which Lenine had prophesied would come, but which he could not have expected in so rapid and ample a degree. The first or democratic revolution in Russia; caused by the appalling military disasters of the preceding years, occurred in the first months of 1917. When it became clear to the German Government that the new Russian régime was loyal to the allied cause, it gave Lenine a safe conduct across central Europe in the hope that the presence in Russia of the leader of the Marxian revolutionaries would make such confusion as would paralyze the ability of Russia

to take any further part in the war.

These calculations were well founded. Lenine and his associates immediately set to work to break up the army by the demand for immediate peace, and the cry that all power in the army and the workshops should be placed in the hands of soldiers' and workers' committees. At the same time they built up a fighting Bolshevist organization of their own. By October their plans were ripe, the second revolution took place, and the Kerensky régime was replaced by the Soviet. Then followed a torrent of legislation by edict probably unparalleled in history, for Lenine applied to Russia the plans which he had laboriously worked out long before in the quiet valleys of Switzerland. Everything was nationalized—the land, the banks, all houses and businesses; in fact, private property of every shape and form, except the clothes on the individual's back-and a vast organization was improvised for allotting appropriate work to every citizen and for distributing the proceeds of the common

labor on equal terms to all. Unfortunately, perhaps, the theory of Communism, which has both reason and justice in it, and has support from the practice of the early Christians, has two fatal flaws. It ignores the fact that the disorders of society are primarily due to thoughts and ambitions, the fears and the passions which animate the individuals of which it is composed, and that no great reform can ever take place with lasting success which is not the consequence of an improved way of thinking in the community itself; and, secondly, if the State is to own all property and parcel out work and sustenance to all, it would have to be controlled by an intelligence which was divine in its omniscience and benevolence, and not that of the normal bureaucrat of our time. Lenine recognized this in part, to the extent that he saw that the ideals for which he lived would take centuries to realize by the normal process of democracy. Hence his unabashed advocacy of the dictatorship of the proletariat—that is, of the Communist Party, so that his reforms could be effected by force over the heads of a multitude which, as he used to say, was too ignorant and too stupid to appreciate what

was being done for its benefit.

This was the rock upon which the whole Communist movement has split. Having started with force, it was driven to use it ever more violently, until the Bolshevist revolution acquired a name for savagery, and hatred, and brutality which made even the atrocities of the Terror in France pale into insignificance. Even so, force failed. Despite the superhuman exertions of the Communist leaders, little by little the traditional ways of thought of the people reasserted themselves, first in the rejection of the communal ownership of the land, and then in insistence on the restoration of private enterprise in business on a modified scale, so that today little is left of the original régime except the control by the Government of "big business" and foreign trade, and the continuance of the absolute autocracy of the commissars. It is, indeed, not unreasonable to attribute the physical decline of the man who throughout has been the head and front of the movement, and who has maintained an unquestioned ascendancy over all his colleagues, in great measure to the realization that his great experiment was doomed to failure. But Lenine's career will not have been in vain, despite all the suffering it has brought upon Russia, if mankind reads the lesson of it aright—that to base reform on violence is both wrong and futile, and that they only succeed who are so confident of the justice of their cause that they will await its fruition until the ideas for which they stand have won the support of a majority of their countrymen by their own inherent truth.

THE National Economic League has been taking a referendum of the members of its National Council on certain warmly debated ques-

tions of international relations. This council numbers about 3000, who are nominated by preferential ballot from each state, with a view to their standing or qualification as leaders of public opinion. They include among their membership presidents and professors of universities, judges, lawyers, bankers,

A Poll on Internationalism

merchants, farmers, industrial and labor leaders. It is therefore fair to regard the opinion which they have expressed as that rather of a class than of the masses of the people. It is, we should say, the opinion of people trained rather to think for themselves than to take unquestioningly the opinions of others.

A summary of the opinions expressed shows this body of citizens strongly in favor of the League of Nations; almost unanimously for the World Court; and favorable to the scaling down of the war debt as part of a general program of international economic adjustment. Some of the votes on the individual propositions, with the percentages polled by each, are interesting enough to quote:

Should the United States enter the League of Nations with such reservations as may be acceptable to the

Government of the United States?

The heaviest majority was that cast in favor of the support of the Permanent Court of International Justice, but it is notable that next to this the largest vote was cast in favor of congressional approval of President Harding's proposition for refunding the British war debt, not covered in the foregoing tabulation, since the vote was taken during congressional consideration of the

Tests of opinion such as this have a certain value as a partial indication of national sentiment. It is, however, only partial. The opinions of any 3000 individuals, however eminent in the professions or callings, can hardly be regarded as indicative of mass sentiment in the country. Moreover, as has already been indicated, these opinions are drawn from distinctively conservative sources, and are not to be taken in any sense as representative of the view of even a majority of the general electorate. But the result of the vote does show that some 1500 persons of sufficient eminence to have been selected as representative of their various communities are favorable to the wider participation of the United States in international affairs, and that, therefore, their interest. as leaders of thought in their communities, may be looked upon as likely to be exerted to encourage such

From the offices of those in charge of rail transportation, and from the headquarters of highway associations

Tourists—

By Rail and

Highway

in the United States, come reports indicating the completion of preparations for unusually heavy tourist traffic during the coming summer and fall. It is along the highways, of course, that seasonal activity will be most marked. The railroads, like the brook, run on forever. They carry their human freight, the tourists and business men and

women, the year round. As one goes forth on a journey it is impossible to avoid the feeling that, of a sudden, all the people of the world have decided to travel. Scheduled daily trains running between far distant cities are divided into sections, the cars of which are filled almost to overflowing. As one observes a train passing in the opposite direction on an adjoining track, it is seen to be a counterpart of his own, filled with people eager to reach their prearranged destinations. It has been said that Americans travel habitually. It is true that they cover comparatively great distances with little thought that they are accomplishing, easily and in comfort, what would have been a serious undertaking, if indeed it had been possible, a half century ago.

But it is along the winding continental highways that the first spring days bring a distinct revival of activity. The tourist family, snugly packed away in a well-equipped motor car, thinks nothing of setting out on a journey of a few hundred miles, and with each recurring summer added recruits join the ranks of transcontinental wayfarers, who cover the routes from ocean to ocean and from lakes to gulf, camping and taking interesting side trips along the way. It is estimated that approximately a quarter of a million people will travel over the Lincoln

Highway between April 20 and Oct. 25, this year. To carry this vast army of peaceful adventurers, some 60,000 automobiles will be impressed into service.

One could hardly imagine a more delightful experience than this trip, in either direction, between the Atlantic and the Pacific. It is one of genteel yet care-free vagabondage. The purring motor makes sweet music as the landscape appears to draw nearer and recede, as hills and valleys and long open stretches of the smooth highway are traversed. The inclination is to forget time schedules and to disregard the unimportant changes in weather. There are pleasant associations and interchanges, the adventure of meeting and overcoming difficulties, some trifling and some vexatious, always with the assurance of days, and possibly weeks, of contentment and agreeable change.

The American people are becoming more and more neighborly. Frequent visits back and forth have served to remove whatever was left of sectional reserve and unfriendliness. The northerner undertakes a journey to the south, and the easterner to the west, quite complacently, with assurance of a cordial welcome.

RECORD-BREAKING activity seems not the exception but the rule in various lines of industry in the United

The

Business

Situation

States. Notwithstanding the enormous production of manufacturing concerns last year, the output of many establishments in 1923 promises to be the greatest in their history. For this period of the year, usually considered a dull season, industrial activity exceeds all previous records. Orders on books and plans for expansion contemplated by

some of the largest institutions in the United States give assurance that this activity not only will continue but increase throughout the remaining months of the year and

probably longer.

Here are some indications of present and future prosperity: The announcement a few days ago that the railroads had authorized the expenditure of \$1,540,-000,000 in new locomotives, cars, tracks, and terminals, the American Railway Association calling upon every road, shipper, and householder to aid in relieving the heaviest traffic burden in history; the fact that the present rate of pig-iron production, a business barometer, is breaking all records; the consumption of gasoline is the largest ever known; the substantial increases in wages which have been announced in steel mills, textile mills, and other industries, with practically no unemployment anywhere; indications that many corporations will increase disbursements to shareholders during the year; the fact that Westinghouse Electric Company is receiving business at the rate of more than \$200,000,000 a year, and General Electric at the rate of more than \$300,000,000 a year; American Brass Company shipments exceeding the best previous records, even the war period; earnings by the American Locomotive Company at the rate of \$40 to \$50 a share on the common stock; automobile production at a new high record; savings banks deposits largely increased; money situation favorable, as indicated by the fact that rediscount rates were not advanced as expected and are not likely to be soon, and by the unusually strong position of the federal reserve banks; good demand for investment securities and quick absorption of new offerings; the fact that there are no important strikes on hand or pending, and that with labor fully employed the buying power of the Nation is greatly increased, as indicated by the big gains shown in retail and chain store trade.

The above are only a few of the high spots in the American business situation. Members of the Cabinet are in a position to gather and analyze reports of conditions as they come in from all parts of the country, and the recent optimistic statements of Secretaries Mellon. Hoover, and Davis as to the outlook are most encouraging. Bankers and big business men generally are aware of the trend of things and are preparing to take care of the record-breaking business before it becomes too

unwieldy to handle.

Editorial Notes

THAT the British House of Commons has just passed by a large majority the Performing Animals Bill means that another step has been taken toward eliminating the needless suffering which undoubtedly is associated with much animal training. As such, it is a matter of congratulation. On the other hand, it is easy to appreciate some of the questions which were propounded by the Labor members, who seem to have opposed the measure on the ground that Parliament might to better advantage turn its attention to caring for slum children than animals. Then, too, some asked, "Why not stop foxhunting?" and others directed their inquiry against horseracing and that "cruelest of sports," steeplechasing. Still, any action which gives indication of an aroused public conscience along the line of mitigating unnecessary pain deserves support and commendation.

4 4 4 THE gratifying fact that March was the banner month in the number of cases brought, according to a statement by the United States Prohibition Commissioner on the first anniversary of the establishment of divisional prohibition chiefs with mobile forces of agents, is a matter of heartiest congratulation to the prohibition enforcement agents of America. There were 1623 cases brought during the month, or 600 more than the previous high record, he said, adding that whereas a year ago the force comprised less than 250 agents, today it contained nearly 500, and had doubled in efficiency and productivity. If the all-round increase goes on in like progression, it will not be long before the bootlegger is completely, what he should be now, a creature of the past.

The American Indian Question

By GEORGE WHARTON JAMES.

Recognizing the importance to the American people of the problem of control of the properties and welfare of the American Indians, arrangements have been made with Dr. George Wharton James, a recognized authority upon the subject, for a series of articles dealing with the matter in its past and present aspects. The first article appears herewith. Others will follow from time to time. Dr. James is a well-known explorer and ethnologist, who has long studied the Indian problem and who has written numerous books and treatises from first-hand observation. He has lectured in many of the larger cities of the United States. For many years he has worked unceasingly to expose what he insists are the abuses practiced by the United States Indian Bureau in its dealings with

Just now the Indian question is being brought very prominently before the American people. The introduction of the Bursum Bill in the Senate, and after its passing, Senator Borah's action in recalling it, caused considerable excitement. Then the storm of protest that broke over the country when the provisions of the bill were known; Secretary Fall's open defense and advocacy of it as "an Administration measure"; and the warm approval accorded it by Commissioner Burke of the Indian Bureau, showed there were two sides fiercely battling for supremacy as to the merits of the bill. The attack on the bill has been largely sponsored by the Indian welfare department of the Federation of Women's Clubs, numbering over 2,500,000 members. Mrs. Atwood of Riverside, Cal., chairman of this department, and John Collier, especially appointed by the federation to guard the interests of the Indians, have written and spoken extensively condemning the Bursum Bill in all its phases. Magazines and newspapers throughout the country have been dotted with articles or editorials, pro and con, and the war is still on.

Then, too, the movement to organize the Indians of California into auxiliaries of the Indian Board of Co-operation, the honorary president of which is the eminent educator and philanthropist, David Starr Jordan, has excited more than ordinary interest. Of the 20,000 Indians of California, nearly 9000 have joined these auxiliaries, and early in 1922 a delegation of nine of them, led by Frederick G. Collett, the executive representative of the board, went to Washington and stayed there four months interviewing the Secretary of the Interior, the Indian Commissioner, the Senate and House Committees on Indian Affairs, and the individual senators and representatives who they deemed might be willing to help them in their struggle.

And these are but isolated facts in the great Indian agitation that is fermenting and working throughout the whole country. Delegates are piling into Washington from west, north, and south, claiming they are not receiving a square deal

It is openly charged that the Indians' Rights Association, organized long ago by earnest eastern people who sought the welfare of the Indian, has fallen from its high estate and is now a truckling follower of the Indian Bureau. Dr. Carlos Montezuma and other noted Indians have frequently and bitterly charged that the Society of American Indians has likewise been tied as a tail to the kite of the Indian Bureau by its recreant officers. And in addition to this, Clyde Kelly of Pennsylvania has delivered a terrific arraignment of the Indian Bureau in two speeches before the House of Representatives, in which he charges that "the Indian Bureau system is a wastrel, profligate beyond description. It wastes every year millions of dollars collected from American taxpayers and millions more abstracted from the possession of the Indians themselves. It wastes still other millions which would accrue from this untaxed Indian wealth once it was Americanized. It wastes the self-respect of a race and he possibilities of a proud people. It wastes material resources by inefficiency, and spiritual resources dependence and pauperism. It wastes the confidence of the Indians by setting up decoys that lead them to their doom. It wastes their labor by setting them at futile tasks which have no value in American civilization. It wastes their vouth in segregated schools which perpetuate tribalism. It wastes their maturity by keeping them in wigwam and tepee and making them aliens in the land of their fathers. It wastes money and manhood, character and citizenship, and conserves only idleness and ignorance and vice."

+ + + This is a fearful series of indictments. If one-tenth of them are true, the American people should know it, to the end that they may demand, in no uncertain voice, either the complete abolishment of the bureau, or a change in its policy and

It is my purpose in the following articles to present facts in regard to the treatment of America's western Indians. For over forty years I have studied them in their own homes, as well as that which has been written about them. Somewhere, somehow, the Indian policy of the United States has been full of blunders, mistakes-aye, and worse. "Policy," did I say? This is where I have made a mistake. The United States has had no Indian policy." By the American system, each time a new Secretary of the Interior was appointed, and he selected the Commissioner of Indian Affairs, the "policy" was changed to meet the whims and fancies, notions and idiosyncracies of the new incumbent. A perfect example of this is given in the bureau's treatment of the California Indians' Court of Claims Bill. The assistant commissioner, E. B. Meritt, is the man who transacts the legal business of the bureau. He retains office no matter who is "in" or "out." Hence, when, under the secretaryship of Franklin K. Lane, who approved of the California Indians' Bill, Mr. Meritt (or the Indian Bureau) was asked to report on the bill, Mr. Meritt said he had been glad to help prepare the bill, heartily approved of it, and deemed it the wise and proper procedure to satisfy the longrefused demand of the California Indians. 4 4 4

Two years later, at a second hearing, with Secretary Fall in the place occupied by Mr. Lane, a new spirit is evident. Fall said, No! where Lane had said, Yes! Hence Mr. Meritt turns tail on everything he had before said and clearly shows to the satisfaction of the chairman of the House Committee on Indian Affairs that what he said two years before was nonsense, and, of course, the claim of the California Indians was all "bosh" and must be denied. And this, my readers will please observe, is not something that happened fifty years ago. It happened A. D. 1922, and similar things are happening in the treatment of the American Indians all the time

Yet, while I have been compelled to refer to Mr. Meritt by name, this is not a fight on individuals. Personally Mr. Meritt is an estimable gentleman and we are good friends. But I am unalterably opposed to the Indian Bureau system. It is but a small part of the common governmental machinery of the United States. Therefore it can claim no exemption from criticism or censure.
